DOCKETED BY

RE: Arizona Public Service Company Progress Report
Docket No. E-00000D-09-0020

In Decision No. 72031, dated December 10, 2010, the Commission ordered that:

SWTC, APS, TEP & SSVEC shall jointly complete additional actions and file specified information related to the Cochise County Study Group plan of service, and; By September 30, 2011, submit a progress report including in-service dates for the components of the plan of service identified in the June 30, 2011 facility study. This schedule shall reflect the most recent load forecast.

Cochise County Study Group has completed the technical analyses; however; it is important to note that discussions are ongoing as they relate to reaching agreement on which of the changes identified in the report will be implemented as well as the timing for such implementation. For its part, Arizona Public Service Company ("APS") is committed to making the necessary changes to its 69 kV system for the enhancement of APS customer reliability.

Southwest Transmission Cooperative ("SWTC") will file the progress report on behalf of Cochise County Study Group participants. This letter serves as notice to the Commission that APS has complied with the filing requirement in Decision 72031 via SWTC's filing described above.

If you have any questions regarding this information, please contact Jennie Vega at (602) 250-2038.

Sincerely,

Jeffrey W. Johnson
