Customer Meter Downsizing Tariff

Applicable to:

- Global Water – Santa Cruz Water Company;
- Valencia Water Company – Town Division;
- Valencia Water Company – Greater Buckeye Division;
- Water Utility of Greater Tonopah;
- Willow Valley Water Company.

References to Utility means one of the utilities listed above.

Purpose:

The Utility is not responsible for determining the appropriate size meter for use. Residential, commercial/industrial meter sizes are determined by the builder based on pressure and flow requirements and the requirements of the local building authority and fire protection authority. The builder is responsible for determining the appropriate meter size. In some instances, the builder selects larger meters sizes due to pressure (e.g. two-story homes), fire protection (e.g. sprinklers) and irrigation requirements.

The purpose of this Tariff is to provide a mechanism for a homeowner or commercial/industrial user to request that the meter be changed out to a smaller size.

Homeowner Responsibilities:

The homeowner or commercial/industrial user is required to execute a Meter Downsizing Request Form, "Exhibit A", which shall survive the transition and/or sale of the property from the current owner to a new owner.

The owner is required to determine the appropriate size of the meter.

The owner is required to obtain at their own cost all necessary approvals from authorities having jurisdiction, including but not limited to local building authorities, local fire protection agencies, etc.

Any owner (and their successors and assigns) shall hold harmless and release Utility and its affiliated companies together with the employees, agents and assigns of such companies from any responsibility for any direct or collateral damage, losses or operational impacts associated with the meter size change or the size of the meter being inadequate or insufficient for the needs of the owner.

The owner is required to reimburse the Utility for the costs associated with the meter change, including: (1) the cost of the new meter and; (2) installation costs in accordance with A.A.C. R14-2-405.B.5. See Utility's Service Line and Meter Installation Charges as shown on the Utility's current rate schedule.
