Hydrant Meter Deposit Charge Tariff

Applicable to:

- Global Water – Santa Cruz Water Company;
- Valencia Water Company – Town Division;
- Valencia Water Company – Greater Buckeye Division;
- Water Utility of Greater Tonopah;
- Willow Valley Water Company.

References to Utility means one of the utilities listed above.

Purpose:

The purpose of this tariff is to detail the deposit requirements for Hydrant Meters and Backflow Prevention Assemblies. Hydrant Meters are large expensive pieces of equipment and include certified back flow prevention and automated meter reading devices. Utility requires that hydrant meters be installed and/or moved by Utility-authorized personnel and that the meter is locked to the hydrant supplying service. The deposit will protect the Utility against loss, theft, or damage of this equipment.

Tariff:

The Applicant for a Hydrant Meter must, at the time of request, pay to the Utility a refundable deposit of \$1750.

Utility will provide a deposit receipt and note the deposit amount on the Applicant's account record.

The deposit will bear interest at the customer deposit rate specified in Utility's current rate schedule.

The deposit will be returned to the Applicant with any accrued interest, less any repair costs within 45 days of the return of the Hydrant Meter.

Upon installation of the Hydrant Meter, Utility will provide written certification to the Applicant that the Hydrant Meter is fully functional and ready to use.

Effective Date: 1 October 2011
Decision No: 72590
Docket No: W-20445A-09-0077 et al.

Upon Utility's removal of the Hydrant Meter, the assembly will be inspected for any damage and the Applicant will be informed in writing of the cost of any repairs. Any repair costs will be deducted from the deposit amount.

It is the Applicant's responsibility to inform Utility when the Hydrant Meter is to be removed. If the Applicant does not request removal of the Hydrant Meter, the Applicant forfeits the deposit.
