Re: Notice of Errata - Tucson Electric Power Company Pricing Plan Rider -5
Docket No. E-01933A-09-0340, Decision No. 71835 (August 10, 2010)

On October 29, 2010 Tucson Electric Power Company ("TEP") filed its Pricing Plan Rider – 5 Electric Service Solar Rider Bright Tucson Community Solar™ in compliance and consistent with Arizona Corporation Commission Decision No. 71835. In the original filing the Base Power Contract Rate for the Large General Service Rate Schedule was \$0.024915; however, the correct rate is \$0.029371. TEP hereby files a corrected version of the Pricing Plan.

If you have any questions, please contact me at (520) 884-3680.

**Pricing Plan Rider-5
Electric Service Solar Rider
(Bright Tucson Community Solar™)**

A UniSource Energy Company

APPLICABILITY

Pricing Plan Rider-5 is for individually metered customers who wish to participate in the Bright Tucson Community Solar Program. Under Rider-5, customers will be able to purchase blocks of electricity from solar generation sources. Participation in Rider-5 is limited in the Company's sole discretion to the amount of solar generation available and subscription will be made on a first come, first served basis. In order to maximize subscription under Rider-5, TEP may limit the amount of solar block energy purchased by individual customers. Pricing Plan Rider-5 is further restricted to customers being served under one of the following Pricing Plans:

- 1) Residential Lifeline Discount, Pricing Plan R-06-01
- 2) Residential Electric Service, Pricing Plan R-01
- 3) General Service, Pricing Plan GS-10
- 4) Large General Service, Pricing Plan LGS-13
- 5) Municipal Service, Pricing Plan PS-40

Customers being served under self-generation riders or plans may not purchase power under Rider-5 (including, but not limited to Net Metering for Certain Partial Requirements Service Rider-4 and Non-Firm Power Purchase from Renewable Energy Resources and Qualifying Cogeneration Facilities of 100 kilowatts (kW) or Less Capacity Rider-101).

RATE

Customers can contract for a portion or up to their average annual usage in solar blocks of 150 kilowatt hours (kWh) each. Transmission and distribution charges will be applied to all energy delivered, including energy delivered under Rider-5. The Customer is responsible for paying (each month) all charges incurred under their applicable rate schedule, and the total solar energy contracted for multiplied by the applicable solar block energy rate. Any demand based charges under the Customer's current Pricing Plan will not be affected by elections under Rider-5.

Rate Schedule	Base Power Contract Rate	Solar Energy Premium	Solar Block Energy Rate
Residential Lifeline R-06-01	\$0.030198	\$0.020000	\$0.050198
Residential Service R-01	\$0.030324	\$0.020000	\$0.050324
General Service GS-10	\$0.028475	\$0.020000	\$0.048475
Large General Service LGS-13	\$0.029371	\$0.020000	\$0.049371
Municipal Service O-40	\$0.029086	\$0.020000	\$0.049086

TERMS AND CONDITIONS

- 1) Customers may contract for a portion or up to their average annual usage in solar blocks of 150 kWh. If Customer's annual average usage is not available, TEP will apply the appropriate class average. This limit can be reviewed annually at the request of the Customer.
- 2) Each solar block's energy rate will be maintained for twenty years from the date of purchase. For the purposes of the twenty year energy rate, solar blocks will be attributed to the Customer's original service address. Transfer of service under Rider-5 is prohibited. Should the Customer cancel service for any reason, his or her subscription under Rider-5 will expire.
- 3) Customers may add or delete solar blocks once within a twelve month period. Any addition of solar blocks will be at the then offered solar block energy rate.
- 4) Solar blocks will be applied to the actual energy usage each month. Electricity used in excess of the purchased solar blocks will be billed at the Customer's regular energy rate. If electricity usage is below the amount covered by the solar block(s), then the excess kWhs will be rolled forward and credited again the Customer's usage in the following month. The Customer will still be responsible for the full cost of the block(s) each month.

Customers will be credited for the balance of any excess kWhs annually, or on their final bill should the Customer terminate service under Rider-5. Each year, for the bills produced in October (September usage), TEP will credit Customers their excess kWhs after netting and reset their balance to zero. Credit for excess kWhs will be at the energy rate of the oldest solar block.

- 5) All contracted solar block kWhs and associated charges in a billing month will be excluded from the calculation of PPFAC and REST charges and/or credits.
