APPLICATION OF ARIZONA-AMERICAN WATER CO.

for

WASTEWATER RATE INCREASE FOR RUSSELL RANCH

Docket No. W-01303A-09-0343

SW-01303A-09-0343

RECEIVED

2011 OCT 20 AM 2:10

DOCKET CONTROL

We, the undersigned, are customers of Arizona-American Water Company's ("Arizona-American" or the "Company") Agua Fria Water District and ratepayers in the community of Russell Ranch. We hereby petition the Arizona Corporation Commission to **deny the wastewater rate increases requested by the Company** in its application and supporting documents for, without limitation, and **reduce our wastewater rates back to the 2006 rates** for the following reasons:

- (1) Our developer, Russell Ranch LLC built and paid for our wastewater treatment plant and turned it over to Arizona American Water Co in 2006 at no cost to the Company. Each of the lots has paid or will pay a fee to connect to this wastewater system when the hook-up is made.
- (2) This is a very low maintaince plant and should last many years before any major repairs are needed.
- (3) Existing customers have paid their fees to hook-up and monthly fees to maintain the plant. New costumers will be paying the hook-up fees as the vacant lots are developed. This plant was a money-maker for the Company at the 2006 rates and rates should still be the same or with minimal increase.
- (4) With these facts, we ask that the rate increase be denied and reduced to the 2006 rates.

PETITION
to the
ARIZONA CORPORATION COMMISSION
regarding
APPLICATION OF ARIZONA-AMERICAN WATER CO.
for
WASTEWATER RATE INCREASE FOR RUSSELL RANCH
Docket No. **W-01303A-09-0343**
SW-01303A-09-0343

We, the undersigned, are customers of Arizona-American Water Company's ("Arizona-American" or the "Company") Agua Fria Water District and ratepayers in the community of Russell Ranch. We hereby petition the Arizona Corporation Commission to **deny the wastewater rate increases requested by the Company** in its application and supporting documents for, without limitation, and **reduce our wastewater rates back to the 2006 rates** for the following reasons:

- (1) Our developer, Russell Ranch LLC built and paid for our wastewater treatment plant and turned it over to Arizona American Water Co in 2006 at no cost to the Company. Each of the lots has paid or will pay a fee to connect to this wastewater system when the hook-up is made.
- (2) This is a very low maintaince plant and should last many years before any major repairs are needed.
- (3) Existing customers have paid their fees to hook-up and monthly fees to maintain the plant. New costumers will be paying the hook-up fees as the vacant lots are developed. This plant was a money-maker for the Company at the 2006 rates and rates should still be the same or with minimal increase.
- (4) With these facts, we ask that the rate increase be denied and reduced to the 2006 rates.
