Re: Rate Increase and Decoupling

We appose the Rate Increase and Decoupling proposed in Docket Numbers: G-01551A-10-0458. Retired on fixed income, any increase hurts.

Please disapprove the decoupling proposal. It is not in anyone's best interest except the stockholders of the utilities.

Thank you

**Proposed Southwest Gas Rate Hike**

Utility Name: Southwest Gas Corporation  
 Docket Numbers: G-01551A-10-0458  
 Re: Rate Increase and Decoupling

Dear ACC Commissioner,

I am concerned about a Southwest Gas rate hike proposal that could mean higher natural gas costs to me and my local area businesses and infrastructure providers. The decoupling options laid out in the proposed settlement agreement appear to have no benefit for the customers, and only serve the interests of the utility company. It is troubling to learn that under this proposal, energy usage may decrease, while customer's monthly bills would increase, and without long-term benefit of reduced rates.

I urge you to [reject the Southwest Gas rate increase and decoupling proposal](#).

 Docket Numbers: G-01551A-10-0458  
 Re: Rate Increase and Decoupling

My understanding of the proposal hike:  
 The decoupling options laid out in the proposed settlement agreement have no benefit for the customer, and only serves the best interest of the utility company, because there is no need for added infrastructure to meet the needs of the current customer base. Under this proposal, energy usage will have gone down, but the customer's monthly bill will have gone up, with no long-term benefit of reduced rates.

Please make a difference and help keep everyone's operating costs down here in Sun City. We are on fixed incomes and cannot afford to pay more while we are trying to conserve and use less. The reason we are trying to use less is because it is difficult to pay for what we have now.

This is ludicrous that Southwest Gas Company does not take their customer into account. How can they justify taking more money from their customers and providing less gas and less service? Please do not let this decoupling happen...EVER. Customers should not shoulder the burden for the risk the stockholders accepted when they bought into Southwest Gas. They should find ways internally to reduce their costs and improve their service without dumping on us customers.
