DELETE Finding of Fact 76 and REPLACE with:

“We do not believe the Company should be required to file three BMPs as a compliance item in this Docket because the Company opposes this requirement and we are unaware of any evidence in the record that the Yuma area—where this Company’s service territory resides—is experiencing or is subject to water shortages. If a water company opposes the requirement to adopt and file BMPs with Docket Control, we believe the Commission should carefully consider the circumstances of the case. In this case, there is a lack of evidence of water constraints in the Company’s service area, and we decline to impose the requirement.”
