Nature of Complaint:

Please do not grant APS' request to raise our residential electric rates.

An economic recession is not the time to increase household costs.

Thousands are out of work, costs for food, transportation, and other household expenses are way up. Many homes are in foreclosure.

Those on Social Security have not seen a cost of living increase in nearly three years. We are finally r3ceiving an increase in Janusry, I live on my Social Security only. I feel that if we use less or fall into a montenary area we sho8uld all receive 33% discount of the CURRENT rate. If solar energy is the future it looks like prices will go up. Explain this to me as I assume we do not have to use any of our current precious resourses to make this happen. Consider the cost of production as a very long term asset which will eventually lead us to a fuel free world. Give all people of SSN surviving only on this earned benefit as receiptents of an overall discount if their total income is \$25,000 or less.

Thank You for reading and remember we do not need any more rushes on having us the world.

Please protect our ability to pay smaller bills if we use less electricity.

I'm asking you - as an elected official - to vote against raising our electrical costs at this time.

Thank you.

Sincerely,

Mr. Michael Skerlak
