TARIFF FORMAT

A. Sheet Numbering: Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between pages 11 and 12 would be page 11.1.

B. Sheet Revision Numbers: Revision numbers also appear in the upper right corner of each sheet where applicable. These numbers are used to indicate the most current page version on file with the Commission. For example, 4th Revised Sheet 13 cancels 3rd Revised Sheet 13. Consult the Check Sheet for the sheets currently in effect.

C. Paragraph Numbering Sequence: There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1
- 2.1.1
- 2.1.1.A
- 2.1.1.A.1
- 2.1.1.A.1.(a)
- 2.1.1.A.1.(a).I
- 2.1.1.A.1.(a).I.(i)
- 2.1.1.A.1.(a).I.(i).(1)

D. Check Sheets: When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the sheets contained in the tariff, with a cross reference to the current Revision Number. When new sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some sheets). The tariff user should refer to the latest Check Sheet to find out if a particular sheet is the most current on Commission file.

SECTION 3 - DESCRIPTION OF SERVICE

3.1 Handset Activation

If a customer's Lifeline activation is accepted, the customer will receive a handset, complete with charger, delivered to the home address noted in their application. They will also receive a welcome kit with the Company's terms and conditions of service and a "Getting Started" guide. The customer will be directed to contact customer service in order to elect the rate plan option of their choice.

The wireless telecommunications networks used to transmit calls for the Lifeline service are owned and operated by the Company's Underlying Carrier(s), not the Company.

Access Wireless handsets can only be used through the Company, and cannot be activated with any other wireless service.

Services are provided at the Company's discretion. Some functions and features referenced in the Manufacturer's manual provided with the handset may not be available on all Company handsets.

3.2 Airtime Usage

Airtime minutes will be deducted for all time during which an Access Wireless phone is connected to, or using, the wireless system of the Underlying Carrier.

Use of a wireless system typically begins when the user presses the "send," "call" or other key to initiate or answer a call and does not end until the user presses the "end" key or the call is otherwise terminated.

Airtime minutes are deducted for all incoming and outgoing calls, including incoming call waiting calls, calls to toll free numbers, 411, Customer Care (on Plan Option 2 only), and to access voice mail.

Airtime minutes are not deducted for calls to 911.

Issue Date: , 2011 Effective Date: , 2011
By: Paul McAleese, CEO
1 Levee Way, Suite 3104
Newport, Kentucky 41071

For outbound calls, the user may be charged airtime for incomplete and/or busy-no answer calls. Airtime minutes will be deducted for use of other services such as text messaging and accessing the web and downloading content to your Access Wireless phone depending on the rate plan option chosen. No credit or refund is given for dropped calls.

Calls are billed in one-minute increments, with a minimum time per call of one minute. Call times are rounded up to the nearest whole minute. Calls are limited to two hours: if a user is on a call for longer than two hours, the call will automatically terminate.

A customer's handset does not have to be "on" to receive its free monthly allotment of minutes.

A customer may check the balance of their account at any time free of charge at www.iwirelesshome.com or from their mobile phone.

3.3 Additional Airtime

A customer can add airtime using their mobile phone interface, by calling customer service, or by purchasing airtime cards at an authorized distributor, including the Kroger family of stores such as Kroger, Ralphs, Dillons, Fred Meyer, Smith's, King Soopers, City Market, Fry's, Baker's, Owen's, JayC, Hilander, Gerbes, Scott's & Pay Less.

Airtime cards are available in denominations of \$10, \$25, \$50 and \$75 and are valid for 90 calendar days from the date of activation for Lifeline customers. After 90 days, any remaining value will expire, except that if a new airtime card is added before expiration of the period, in which case the expiration on all remaining airtime extends to the expiry date of the new airtime card.
