RE: Consumer comments in Support of Tucson Electric Power's Energy Efficiency Programs and Program Budgets, E-01933A-11-0055

Dear Chairman Pierce and Commissioners,

I am a retiree living in Tucson and a customer of Tucson Electric Power (TEP). I strongly support energy efficiency as the most effective way to conserve energy. I therefore am in favor of TEP's energy efficiency programs and program budgets proposed in their energy efficiency implementation plan.

Even as a retiree I am willing to invest in energy now on my electric bill because in the long run they will keep energy costs low for everyone, especially my grandchildren. With increased energy efficiency TEP won't have to build unneeded infrastructure, buy more fuel, and send jobs out of state.

Increased energy efficiency is a major way to a sustainable future. It is necessary for us ratepayers, now and in the future.

Sincerely,

Roy M. Emrick

Re: Consumer Comments in support of TEP's
 Energy Efficiency Programs, etc, E01933A-11-
 0055

Ch. Pierce and Commissioners,

I am a TEP customer. I want you to support the energy efficiency programs and program budgets proposed by TEP in their energy implementation plan.

I want to invest in Energy Efficiency because I want to keep energy costs low and create in-state jobs. Also, I want TEP to avoid building unnecessary infrastructure and buying fuel from out of state.

Please protect the interests of today and tomorrow's ratepayers by supporting these energy efficiency programs.

Thanks — Lee Oler

Re: Consumer comments in support of Tucson Electric Power's Energy Efficiency Programs and Program Budgets, E-01933A-11-0055

Dear Chairman Pierce and Commissioners,

I am a Tucson Electric Power (TEP) customer who wants you to support the energy efficiency programs and program budgets proposed by TEP in their energy efficiency implementation plan.

I am willing to invest in energy efficiency on my bill because I understand that energy conservation programs will keep energy costs low for everyone and will create jobs in my community. If we don't invest in energy efficiency, we guarantee ourselves higher energy bills in the future as TEP will build unnecessary infrastructure and buy more fuel from and send jobs out of state.

I encourage you to protect the interests of today and tomorrow's ratepayers by supporting these important efficiency programs.

Sincerely,

A handwritten signature in black ink, appearing to read "Dorel Vanegas". The signature is fluid and cursive, with a large initial "D" and "V".

RE: Consumer comments in support of TEP's Energy Efficiency Programs & Program Budgets, E-01933A-11-0055

Dear Chairman Pierce and Commissioners,

I am a Tucson Electric Power (TEP) customer who wants you to support the energy efficiency programs and program budgets proposed by TEP in their energy efficiency implementation plan.

I am willing to invest in energy efficiency on my bill because I understand that energy conservation programs will keep energy costs lower for everyone, reduce pollution and water use, and create jobs in my community. If we don't invest in energy efficiency, we guarantee ourselves higher energy bills in the future as TEP will build unnecessary infrastructure and buy more fuel from and send jobs out of state.

Programs such as home energy audits, weatherization, and Energy Star lighting can make a huge difference on the electric bills for me and other TEP customers.

I do not support allowing TEP to opt out of the Energy Efficiency Standard requirements. It should be promoting the strongest energy efficiency programs possible and seeking a full decoupling program in its next rate case.

I encourage you to protect the interests of today and tomorrow's ratepayers by supporting these important energy efficiency programs.

Thank you for considering my comments.

Sincerely,
Mrs. Caryle Johnson

**RE: Consumer comments in support of TEP's Energy Efficiency Programs & Program Budgets,
E-01933A-11-0055**

Dear Chairman Pierce and Commissioners,

I am a Tucson Electric Power (TEP) customer who wants you to support the energy efficiency programs and program budgets proposed by TEP in their energy efficiency implementation plan.

I am willing to invest in energy efficiency on my bill because I understand that energy conservation programs will keep energy costs lower for everyone, reduce pollution and water use, and create jobs in my community. If we don't invest in energy efficiency, we guarantee ourselves higher energy bills in the future as TEP will build unnecessary infrastructure and buy more fuel from and send jobs out of state.

Programs such as home energy audits, weatherization, and Energy Star lighting can make a huge difference on the electric bills for me and other TEP customers.

I do not support allowing TEP to opt out of the Energy Efficiency Standard requirements. It should be promoting the strongest energy efficiency programs possible and seeking a full decoupling program in its next rate case.

I encourage you to protect the interests of today and tomorrow's ratepayers by supporting these important energy efficiency programs.

My business as well as many others in Arizona depend on all the energy efficiency programs in place. Marketing and getting the word out is just as important as the programs themselves. It helps change the collective consciousness of the people in Arizona, by enlightening and encouraging all users of energy that "Energy Efficiency" can and will make a difference in Arizona's future.

The funds need to be continuously regenerated for all the rebate programs that help create the incentive to move forward with capital improvement projects at businesses and our homes alike. Without these types of programs and rebates in place the payback gets pushed passed the point where people and businesses are willing to commit... especially in our current economic environment.

As a business owner that depends on these programs and energy efficiency rebates, I urge you to only support and enhance any already existing programs rather than diminish them. Thank you for your consideration.

Thank you for considering my comments.

Sincerely,
Mr. James Hennessy

RE: Consumer comments in support of TEP's Energy Efficiency Programs & Program Budgets, E-01933A-11-0055

Dear Chairman Pierce and Commissioners,

I am a Tucson Electric Power (TEP) customer who wants you to support the energy efficiency programs and program budgets proposed by TEP in their energy efficiency implementation plan.

I believe that energy conservation programs will keep energy costs lower for everyone in the long run and create jobs locally. If we don't invest in energy efficiency, we guarantee ourselves higher energy bills in the future as TEP will build unnecessary infrastructure and buy more fuel from and send jobs out of state. Programs such as home energy audits, weatherization, and Energy Star lighting can make a huge difference on TEP customer's electric bills.

As such, I do not support allowing TEP to opt out of the Energy Efficiency Standard requirements. TEP should be promoting the strongest energy efficiency programs possible and seeking a full decoupling program in its next rate case.

I ask you to protect the interests of today and tomorrow's ratepayers by supporting these important energy efficiency programs.
