Dear Chairman Pierce and Commissioners Newman, Stump, Burns and Kennedy,

I am Doug Bland, Executive Director of Arizona Interfaith Power & Light. We are Christians, Muslims, Jews and other people of faith who care about God's creation and work to mitigate the causes of climate change. I am also an APS customer. I urge you to support the energy efficiency programs and program budgets proposed by APS in its Energy Efficiency Implementation Plan. Personally, I am willing to pay for energy efficiency on my APS bill because I believe that energy conservation programs will help keep energy costs low for everyone and will create jobs in our community. By not investing in energy efficiency, we will guarantee ourselves higher future energy bills since APS will need to build unnecessary infrastructure, purchase more fuel from out-of-state, and send jobs outside Arizona.

I encourage you to protect the interests of current and future ratepayers by supporting these important programs. Thank you for serving Arizona as Corporation Commissioners.

Sincerely,

Rev. Doug Bland  
Executive Director
