Re: Docket: W-01431A-09-0360, W-01431A-09-0361

Decision #: 71899

To whom it may concern;

As one of the authorized representatives for Valle Verde Water Company ("VVWC"), please be advised that we are requesting an extension of time in regard to the compliance item Docket # W-01431A-09-0360, W-01431A-09-0361 Decision #: 71899. We have not received the Approval of Construction (AOC) due to the time it has taken to design the required storage tank and to have the necessary contracts signed for the well 2 site. We are hoping to start construction in March of 2012, and hopefully have it complete in July. Once Construction is complete we will then send the required information to ADEQ for their review for the Approval of Construction (AOC). We are requesting a one year extension because of the possible unknowns that can slow down this project even further. If you have any questions please do not hesitate to contact us.

Respectfully,

Keith Dojaquez, CCI  
Vice President

General Operations Manager  
Southwestern Utility Management, Inc.
