IV. LOCAL EXCHANGE SERVICES (CONT'D)

7. State Specific Plans or Offers (Cont'd)

7.20 Verizon Business Services Flexible T1 Service^{1/2}
(also "Verizon Business Services II Flexible T1 Plus Service" and "Verizon Business Service III Flexible T1 Plus Service")

Verizon Business Services Flexible T1 Service ("Flexible T1 Service") is a flexible, integrated T1 service that offers a single access method for many Company voice, data, and Internet services, including Local Service, Interstate Long Distance Voice Services and Intrastate Long Distance Voice Services Outbound Service, Private IP Service, and Integrated Internet Access Service.

- Integrated Internet Access is access to the Internet available only with Flexible T1 Service.

Flexible T1 Service is based on a channelized T1 that must be configured with a minimum of 12 circuits (and a maximum of 24) of which six must be Local Trunks or Local Lines (but not both), one circuit must be one of the above-mentioned data or Internet services, and the remaining circuits can be Local Trunks or Local Lines of voice (but must match to Customer's choice of trunks or lines on the first six circuits), or one of the above data or Internet services, or a combination of both. Flexible T1 Service is only available under Verizon Business Services (VBS) II or III.

Eligibility: Customer must subscribe to service under a Verizon Business Services II or III Agreement or renew under a Verizon Business Services II or III Agreement with a minimum 1 year commitment as described in the Company's "Service Publication and Price Guide" located on the Company's Internet site at www.verizonbusiness.com. Customer must also subscribe to the Verizon Business Services II or III Flexible T1 Plus offering as described in MCI Communications Services, Inc. d/b/a Verizon Business Services, Arizona Tariff No. 3 ("Companion Intrastate Service"). The Verizon Business Services II or III Flexible T1 Plus Service cannot be used in conjunction with the Verizon Business Services II or III Local and Long Distance Plan.

Monthly Recurring Charges: A monthly recurring charge will apply for the Service. This charge is identical to, and shall not be in addition to, any monthly recurring charge applicable to Companion Interstate Service or Companion Intrastate Service. The Offer is available on a per-circuit basis.

The following Monthly Recurring Charges apply:

Flexible T1 Plus: \$44.00 Per Circuit Rate/Local Lit Building Rate
Per Circuit (minimum of 12 circuits and 6 must be local)

I/T

Customers are eligible to receive Verizon Business Services II or III Local discounts on top of the monthly recurring charge for: Integrated Internet Access, Local, Local Trunks, Private IP service, and Metro Private Line (Lit Buildings Only).

¹ Effective October 1, 2010, this service will no longer be available to new customers or permit existing customers to move their service or add new Flexible T1 Service to new locations.

² Effective September 1, 2011, no changes of any kind may be made to existing Flex/Flexible T1 service. (Note that the service is already not available for new orders and moves.)

VII. LOCAL RATES AND CHARGES

1. **RATES AND CHARGES:** The following usage rates will apply to all outgoing direct-dialed calls placed to Stations within the caller's local exchange area, as defined herein. Per minute rates are applied on a per minute basis. If the computed per minute charge includes a fraction of a cent, the fraction is rounded to the nearest whole cent at or above \$0.01. Pricing programs apply for each Local service pursuant to Customer's written agreement.

The following monthly recurring charges, per minute charges, non recurring charges and operator assisted charges apply. Footnotes in the chart are explained below the chart.

The charts contain columns for various pricing programs, including Verizon Business Services I (VBSI), Verizon Business Services II for circuits or services installed prior to July 1, 2007 (VBS II Pre July 1, 2007), Verizon Business Services II for circuits or services installed on or after July 1, 2007 (VBS II on or after July 1, 2007), or Verizon Business Services III (VBSIII). New installations for circuits or services under VBS I and both versions of VBS II have been grandfathered and are no longer available to new or renewing customers. Rates for Pre-VBS are the same as VBS I, unless a more specific rate is set forth in the Grandfathered Services section of this tariff.
