RE: Consumer Comments in support of Tucson Electric Power's Energy Efficiency Programs & Program Budgets, E-01933A-11-0055

Arizona Corporation Commission
DOCKETED
MAR - 6 2012
DOCKETED BY

Dear Chairman Pierce and Commissioners,

I am writing you as a long time TEP customer that believes and supports the energy efficiency programs & program budgets that have been proposed by TEP in their energy efficiency implementation plan. I accept the increases that would take place in my bill, because investing in energy conservation will yield lower costs for everyone and will provide jobs for people as well. I hope you will protect the interests of this state's taxpayers by supporting these crucial programs.

Sincerely,

Max Toreddi

RE: Consumer comments in support of Tucson Electric Power's Energy Efficiency Programs & Program Budgets, E-01933A-11-0055

Dear Chairman Pierce and Commissioners,

I am currently a Tucson Electric Power (TEP) customer who supports the energy efficiency programs and program budgets. In this day in age, energy efficiency is becoming more and more important. In a struggling economy saving money should be a "no-brainer." It would also create jobs and economic development. Energy Efficiency programs would also help better protect and preserve the environment for future Tucson generations to enjoy.

I would be happy to pay slightly higher utility rates in order to have energy bills go down.

I Thank you for taking the time to read this and encourage you to support these energy efficiency programs.

Sincerely,

Tucson Resident, Richelle Corbin

RE: Consumer comments in support of Tucson Electric Powers Energy Efficiency Programs + Programs Budgets, E-01933A-11-0055

Dear Chairman Pierce and commissioners,

I am a loyal Tucson Electric Power Company customer in favor of the energy efficiency programs + budget programs proposed by TEP in their energy efficiency implementation. I am willing to invest in higher energy efficient bills with the future health of our environment in mind. Collectively decreasing the cost of energy and fuel usage while increasing the number of jobs would shine light on a more positive future for Tucson's community.

I highly encourage you to support these programs with TEP's current and future ratepayers in mind.

Sincerely,

Nia C. Passerelli
2445 S. St Thomas Aquinas Dr.
Tucson, AZ 85713

Docket#: E-01933A-11-0055

Dear ChairMan Pierce and Commissioners,

I am a Tucson Electric Power customer who is advocating for your support in regards to the energy efficiency implementation plan. This is something, as a Customer, that I am willing to buy into. These energy conservation programs will keep energy costs low for everyone and create jobs in this Community. If we don't do this, in the longer run, we will be paying higher and higher electric bills.

I strongly urge you to consider these programs as a top priority.

Sincerely,

Dominic Matteucci

Re: Consumer comments in support of TEP's Energy Efficiency Programs + Program Budgets, E-01933A-11-0055

Dear Chairman Pierce and Commissioners,

I am a TEP customer who thinks it would benefit all consumers to implement the Energy Efficiency plan. I think this would effectively reduce energy output, while saving the environment. With the amount of fossil fuels used by the world today it is important to conserve and reduce our usage. With Tucson being ready to take steps in preserving the environment it is important to get its residents on board. Please consider these comments in your decision.

Sincerely,

Trent Zottoli

RE: Consumer Comments in support of Tucson Electric Powers Energy Efficiency Programs & Programs Budgets, E-01933A-11-0055

Dear Chairman Pierce & Commissioners,

I am a Tucson Electric Power (TEP) customer who would like energy efficiency programs be implemented in our community. I understand that energy efficiency programs will keep costs to a minimum on my energy bill as well as for everybody else. It will not only increase jobs but will overall promote an healthier enviornment.

Sincerely,

Conrad legé Bongo

RE: consumer comments in support of Tucson Electric power's Energy Efficiency programs and program budgets, E-01933A-11-0055

Dear Chairman Pierce and commissioners,

I am a long time Tucson Electric power customer and I feel very strongly about the proposed energy efficiency programs. We are at a critical moment for our state and it is irresponsible and fruitless to continue building and maintaining outdated electrical infrastructure, especially when Arizona could be on the cutting edge of rational energy programs. I will gladly pay a higher base utility fee if it means lower energy costs and a boost to the local economy.

Sincerely

Max Weintraub

RE: Consumer comments in support of Tucson Electric Power's energy efficiency programs & Program Budgets, E-01933A-11-0055

Dear Chairman Pierce and commissioners

I am currently a Tucson Electric Power (TEP) customer who wants the company to support the energy efficiency standard, that the company is trying to waive. At this point in time I support anything that will replenish our dry local economy. The creation of new jobs from this standard will only benefit tucson currently and in the long run. Please implement these new electricity and budget programs.

Sincerely,

Jessi Shulem, Tucson Resident

RE: Consumer Comments in support of Tucson Electric Power's Energy Efficiency Programs and Program Budgets, E-01933A-11-0055

Dear Chairman, Pierce and Commissioners,

I am a Tucson Electric Power customer who wants you to please support the energy efficiency Programs and program budgets proposed by TEP in their energy efficiency implementation plan. This plan will create many new jobs and improve our community. I would be willing to pay more now in utility rates for energy efficiency, and I'm sure I am not alone, as I know that will have energy bills go down in the future.

I am asking you to please consider these programs for the benefit of Tucson's citizens today and in the future.

Sincerely,

Francesca Porreca

RE: Consumer comments in support of Tucson Electric Power's Energy Efficiency Programs & Program Budgets, E-01933A-11-0055

Dear Chairman Pierce and Commissioners,

I am a Tucson Electric Power customer on E. 8th street who wants you support and put in effect the Energy Efficiency Implementation plan proposed by TEP. I would like to invest in this energy efficiency plan because I believe in effective energy that will result in people using less energy resulting in less usage of fossil fuels which pollute the enviornment. I am willing to invest in this because it will create jobs for people and will result in a healthier enviornment. I we do not do this then we will continue to rely on finite materials that will keep costs high long term.

I hope that you take our opinions into account and help enforce programs that will help better our community.

Sincerely,

Hannah Weintraub

Docket # E-01933A-11-0055

Dear Chairman Pierce and Commissioners,

I am a TEP customer asking for the support from you regarding the energy implementation plan. This plan is something that I, as a TEP customer, care about and would be willing to buy into. These conservation programs would not only keep energy costs low for everyone, but would also create jobs for our community. If we neglect this plan, it will only hurt in the long run by making us pay higher electric bills.

I would greatly appreciate it if you take these programs as a top priority.

Sincerely,
Nick Fardon

RE: Consumer comments in support of Tucson Electric Power & Energy Efficiency Programs & program Budgets, E-01933A-11-00 55

Dear Chairman Pierce and Commissioners

I am writing on behalf of Arizona PIRG in support of the new energy implementation plan. I am a customer of Tucson Electric Power Company and I would be willing to pay higher utility rates in order for my electric bill cost to decrease. We need to stray away from the use of fuel and follow cities such as Portland in going green and venturing towards sustainable energy for our Earth. If jobs can be created from this standard than I would back it 100%.

Please veto the waiver of the Tucson Electric Company and lets get this standard implemented for other communities. Thank you,

Leah Armbrust

RE: Consumer comments in Support of Tucson Electric Power's Energy Efficiency Programs $ Program Budgets, E-01933A-11 0055

Dear Chairman Pierce and Commissioners,

I have been a long time (TEP) Customer who wants you to support the energy efficiency programs and program budgets Proposed by TEP in their energy efficiency implementation plan. The benefits from this program such as, created jobs, lowered costs, and most importantly Create a sustainable Plan for tucsons future. Without this plan we are guarenteed increasing energy use and building of unneccessary infrastructure.

I ask you to protect the interests of today and tommorrow's ratepayers by supporting these important programs,

Sincerely,

Tucson Resident, Wesley C. Oliver

Docket #: E-01933A-11-0055

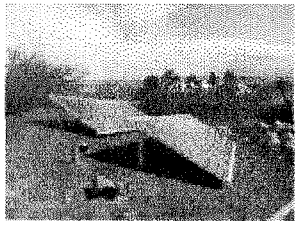
Here is some information about my sustainable work-at-home freelancing business. I'm happy to add my voice to the chorus singing the praises of energy efficiency and sustainability in Arizona.

Best regards,
Heather Severson
StudioGraphia, LLC

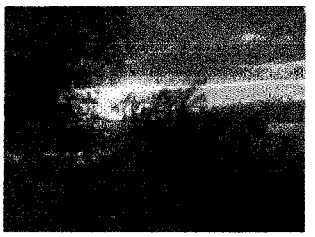
StudioGraphia's Sustainability Efforts

We want to make a positive difference to our local communities and to the planet. Our business practices are built around the intention to minimize our footprint, leave things better than we found them, create order out of chaos, and defeat entropy.

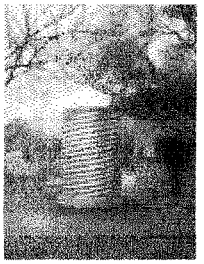
StudioGraphia Headquarters use solar power, solar hot water and rainwater harvesting systems installed by Technicians for Sustainability.



System Size: 3,150 watts DC
Estimated Monthly Production: 400KWH
Module No. & Type: 18 Solarworld 175 monoP
Inverter Type: 3Xantrex GT3.0
Mounting & Pitch: Shingle, 32°
Monthly Environmental Savings:
890 lbs CO_2
400lbs Coal
1.5lbs NOx
2.5lbs SO_2

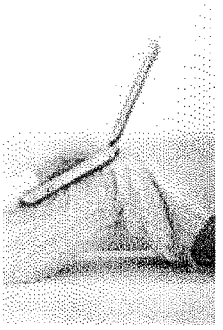


Solar Hot Water
Sunearth Solaray closed loop system produces approximately 400 KWH/month.



Rainwater Catchment
1 4x8 corrugated culvert/cistern holds approximately 650 gallons of water, and receives about 520 gallons per inch of rainfall.
1 5x8 corrugated culvert/cistern holds approximately 1,000 gallons of water, and receives about 480 gallons per inch of rainfall.

StudioGraphia's website is hosted by iPages. The servers, offices and data centers supporting this website are powered by 100% wind energy. The company's energy efficiency is equivalent to planting 2,390 acres of trees or removing 510 cars from the road.



StudioGraphia associates and subcontractors telecommute from their homes in various locations across the US and abroad, using internet technology to support project work, meetings and correpondence. Most of our clients are based in New York City, but we do business all over the world.

RE: Consumer Comments in Support of TEP's
Energy Efficiency Programs & Budgets, E-01933 A-11-0055

Dear Chairman Pierce & Commissioners,

I am a loyal TEP Customer and am a little unsettled after learning about the recently Proposed energy efficiency Programs. Considering the Poor State the economy is in, this new Plan of action seems Absolutely [redacted] responsible. Personally, I would much Prefer to Pay higher base Utility fees resulting in improved technology that our State Can benifit from. In addition these higher based fees would inject life back into our faltering economy. Thank You for your time and Consideration.

Regards,

Jeff Rosenberg

Re: Consumer Comments in support of TEP Energy Efficiency Programs

I have been a citizen of Tucson my entire life. Energy efficiency is very important to me because it costs less money and it creates more jobs in our wonderful city. I for one am absolutely willing to pay a little more in order to make sure Tucson becomes more energy efficient. Thank you for your work on this important issue.

RE: Consumer comments in support of TUCSON Electric Power's Energy Efficiency Programs & Program Budgets, E-01933A-11-0055

Dear Chairman Pierce and Commissioners,

I am a TUCSON Electric Power (TEP) customer who wants you to support the energy efficiency programs and program budgets proposed by TEP in their energy efficiency implementation plan. I am willing to invest in energy effiency on my bill because I understand that energy conservation programs will keep ENERGY costs low for everyone and will create jobs in my community. If we don't invest in energy efficieny, we guarantee ourselves higher energy bills in the future as TEP will build unnecessary infrastructure and buy more fuel from and send jobs out of state.

I encourage you to protect the interests of today and tomorrow's ratepayers by supporting these important programs.

Sincerely,

Re: Consumer Comments in support of Tucson Electric Power's Energy Efficiency Programs & Program Budgets, E-01933A-11-0055

Dear Chairman Pierce and Commissioners,

I am a Tucson Electric Power (TEP) customer who wants you to support the energy efficiency programs and program budgets proposed by TEP in their energy efficiency implementation plan. I support higher utility rates and am willing to pay more as a customer in order to have energy bills go down. These programs will create new jobs such as new construction, low-income weatherization, and appliance recycling. If we don't invest now there will be no incentives for commercial businesses to reduce the energy consumption in the future, I encourage you to support these programs and protect the interests of today and tomorrows rate payers.

Sincerely,
