RECEIVED

2012 MAR 12 P 1:01

AZ CORP COMMISSION  
DOCKET CONTROL

Mar 5, 2012

Commissioner Sandra Kennedy  
1200 W. Washington St.  
Phoenix, AZ 85007

Dear Commissioner Kennedy,

I am a Tucson Electric Power (TEP) customer who wants you to support the energy efficiency programs and program budgets proposed by TEP in their energy efficiency implementation plan.

I am willing to invest in energy efficiency on my bill because I understand that energy conservation programs will keep energy costs lower for everyone, reduce pollution and water use, and create jobs in my community. If we don't invest in energy efficiency, we guarantee ourselves higher energy bills in the future as TEP will build unnecessary infrastructure and buy more fuel from and send jobs out of state.

Programs such as home energy audits, weatherization, and Energy Star lighting can make a huge difference on the electric bills.

I do not support allowing TEP to opt out of the Energy Efficiency Standard requirements. It should be promoting the strongest energy efficiency programs possible and seeking a full decoupling program in its next rate case.

I encourage you to protect the interests of today and tomorrow's ratepayers by supporting these important energy efficiency programs.

Thank you for considering my comments.

Sincerely,

Ms. Pamela Ensign

Arizona Corporation Commission

Mar 2, 2012

Commissioner Sandra Kennedy  
1200 W. Washington St.  
Phoenix, AZ 85007

Dear Commissioner Kennedy,

I am a Tucson Electric Power (TEP) customer who wants you to support the energy efficiency programs and program budgets proposed by TEP in their energy efficiency implementation plan.

We must have more solar energy usage! Cars and electricity. In the meantime any reduction of energy use is a plus for our planet.

I am willing to invest in energy efficiency on my bill because I understand that energy conservation programs will keep energy costs lower for everyone, reduce pollution and water use, and create jobs in my community. If we don't invest in energy efficiency, we guarantee ourselves higher energy bills in the future as TEP will build unnecessary infrastructure and buy more fuel from and send jobs out of state.

Programs such as home energy audits, weatherization, and Energy Star lighting can make a huge difference on the electric bills for me and other TEP customers.

I do not support allowing TEP to opt out of the Energy Efficiency Standard requirements. It should be promoting the strongest energy efficiency programs possible and seeking a full decoupling program in its next rate case.

I encourage you to protect the interests of today and tomorrow's ratepayers by supporting these important energy efficiency programs.

Thank you for considering my comments.

Sincerely,

Ms. Lisa Bates

Commissioner Sandra Kennedy  
1200 W. Washington St.  
Phoenix, AZ 85007

Dear Commissioner Kennedy,

I am a Tucson Electric Power (TEP) customer who wants you to support the energy efficiency programs and program budgets proposed by TEP in their energy efficiency implementation plan.

My husband and I are willing to invest in energy efficiency on our bill because we understand that energy conservation programs will keep energy costs lower for everyone, reduce pollution and water use, and create jobs in my community. If we don't invest in energy efficiency, we guarantee ourselves higher energy bills in the future as TEP will build unnecessary infrastructure and buy more fuel from and send jobs out of state.

Programs such as home energy audits, weatherization, and Energy Star lighting can make a huge difference on the electric bills for me and other TEP customers.

We do not support allowing TEP to opt out of the Energy Efficiency Standard requirements. It should be promoting the strongest energy efficiency programs possible and seeking a full decoupling program in its next rate case.

My husband and I encourage you to protect the interests of today and tomorrow's ratepayers by supporting these important energy efficiency programs.

PLEASE TAKE THE RIGHT, FAIR AND JUST ACTION AS URGED IN THE LETTER ABOVE. We have invested in energy efficient/energy conserving solar power 3 years ago and we think it was a terrific investment.

Thank you for considering my comments.

Sincerely,

Ms. Mary Ann & Frank Graffagnino
