Re: Consumer comments in support of
Tucson Electric Power's ^{Modified} Energy Efficiency
Programs and Program Budgets,
E-01933A-11-0055

Dear Chairman Pierce and Commissioners,
I am in favor of the TEP
Modified EE Plan.

I am a TEP customer and I'm
willing to invest in energy efficiency
on my bill. Energy conservation
creates jobs.

I oppose any waivers of the
energy efficiency standard.

You've been doing great on energy
efficiency and here's a chance to keep
up the good work!

Sincerely,

Christina Moodie

Re: In Favor of TEP Modified Energy Efficiency Plan E-01933A-11-0055

Dear Chairman Pierce and Commissioners:

I am a Tucson Electric Power (TEP) customer who is asking you to support the TEP proposal in their energy efficiency implementation plan.

Energy efficiency is critical for our own and global health, survival, for reduced pollution and water consumption and will create much-needed jobs locally.

I do not support and ask you to oppose any waiver plan which would allow TEP to opt out of the Energy Efficiency standard.

Please support a full decoupling program in the next rate case.

Thank you for your attention and support.

Sincerely,

Sharon McDonough Meaus MD

Re: In Favor of TEP Modified EE
Plan and oppose any waiver. ~~---~~
E-D1933A-11-005

Dear Commissioners,

I am a TEP customer and I am very
much in favor of TEP's Modified Energy
Efficiency plan but I do oppose any
waiver for any reason.

We must help all customers become
more energy efficient with education and
home audits. We will save money and help
the environment. Thank you,

Sincerely,
Barbara M. Cain

Re Consumer comments in support of
TEP's ~~Modified~~ Energy Efficiency Programs and
Program Budgets, E-01933A-0055

I am in favor of the modified
EE Plan and oppose any waiver from
the energy efficiency standard.

I am a Tucson Electric Power
customer who feels strongly that
we need to invest in energy
efficiency in order to lower costs
and reduce environmental effects
of future expansion of power
generation. It would be counter
productive to allow TEP to opt out
of the Energy Efficiency Standard and
should not be allowed.

Sincerely

John M. Piper

RE: Consumer comments in support of Tucson Electric Power's Energy Efficiency Programs and Program Budgets, E-01933A-II-0055

Dear Chairman Pierce and Commissioners,

I am Tucson Electric Power (TEP) customer, and have been for many years. I want you to support the energy efficiency programs and program budgets proposed by TEP in their energy efficiency implementation plan.

I am willing to invest further in energy efficiency because I know that energy conservation programs will keep our energy costs lower, reduce pollution and water use, and create jobs in Arizona. If we don't invest in energy efficiency, we guarantee ourselves higher energy bills in the future as TEP will build unnecessary infrastructure and buy more fuel from and send jobs out of state.

Programs such as home energy audits, weatherization, and Energy Star lighting can make a huge difference on the electric bills for me and other TEP customers.

I do not support waivers or allowing TEP to opt out of the Energy Efficiency Standard requirements. TEP should be promoting the strongest energy efficiency programs possible and seeking a full decoupling program in its next rate case.

I encourage you to protect my interests and the interests of tomorrow's ratepayers by supporting these important energy efficiency programs.

Sincerely,

Dr. Kenneth P. Langton

Re: Consumer comments supporting Tucson Electric Power's Energy Efficiency Programs as well as program Budgets, E-01933A-11-0055

Dear Honorable Chairman Pierce and Commissioners:

As Tucson Electric Power (TEP) customers, through our Condo Assn., we want you to support the energy efficiency programs and program budgets proposed by TEP in the energy efficiency implementation plan(s) they have presented to you.

We are willing to invest in these programs through our bills in an effort to keep costs lower and reduce pollution as well as create jobs in our community now and in the future. This will help avoid excess infrastructure and costs for us and those following in our footsteps.

Programs such as these offering energy audits, weatherization help, Energy Star lighting and appliances and others can make a large difference for us and other TEP customers.

We also do NOT support allowing TEP to opt out of these Energy Efficiency Standard requirements, as they should be supporting strong programs and hopefully seeking a full decoupling program in their next rate case, later this year.

We encourage you (the Commission) to act to protect the interests of today's as well as tomorrow's ratepayers by supporting these very important energy efficiency programs.

Respectfully submitted,

Gerald and Carol Rucks

RE: Consumer comments in support of TEP's Modified Energy Efficiency Plan & Program Budgets, E-01933A-11-0055

Dear Chairman Pierce and Commissioners,

I am a Tucson Electric Power (TEP) customer who wants you to support the energy efficiency programs and program budgets proposed in the TEP Modified Energy Efficiency Plan.

I am willing to invest in energy efficiency on my bill because I understand that energy conservation programs will keep energy costs lower for everyone, reduce pollution and water use, and create jobs in my community. If we don't invest in energy efficiency, we guarantee ourselves higher energy bills in the future as TEP will build unnecessary infrastructure and buy more fuel from and send jobs out of state.

Programs such as home energy audits, weatherization, and Energy Star lighting can make a huge difference on the electric bills for me and other TEP customers.

I do not support allowing TEP to opt out of the Energy Efficiency Standard requirements. It should be promoting the strongest energy efficiency programs possible and seeking a full decoupling program in its next rate case.

I encourage you to protect the interests of today and tomorrow's ratepayers by supporting these important energy efficiency programs.

Thank you for considering my comments.

Sincerely,
Ms. Kristin Thompson

RE: Consumer comments in support of TEP's Modified Energy Efficiency Plan & Program Budgets, E-01933A-11-0055

Dear Chairman Pierce and Commissioners,

I am a Tucson Electric Power (TEP) customer who wants you to support the energy efficiency programs and program budgets proposed in the TEP Modified Energy Efficiency Plan.

We must have more solar energy usage! Cars and electricity. In the meantime any reduction of energy use is a plus for our planet.

I am willing to invest in energy efficiency on my bill because I understand that energy conservation programs will keep energy costs lower for everyone, reduce pollution and water use, and create jobs in my community. If we don't invest in energy efficiency, we guarantee ourselves higher energy bills in the future as TEP will build unnecessary infrastructure and buy more fuel from and send jobs out of state.

Programs such as home energy audits, weatherization, and Energy Star lighting can make a huge difference on the electric bills for me and other TEP customers.

I do not support allowing TEP to opt out of the Energy Efficiency Standard requirements. It should be promoting the strongest energy efficiency programs possible and seeking a full decoupling program in its next rate case.
