**RE: Consumer comments in support of APS Programs and Program Budgets,
E-01345A-11-0232**

Dear Chairman Pierce and Commissioners,

I am an Arizona Public Service (APS) customer who wants you to support the energy efficiency programs and program budgets proposed by APS in their energy efficiency implementation plan.

I am willing to invest in energy efficiency on my bill because I understand that energy conservation programs will keep energy costs lower for everyone, reduce pollution and water use, and create jobs in my community. If we don't invest in energy efficiency, we guarantee ourselves higher energy bills in the future as APS will build unnecessary infrastructure and buy more fuel from and send jobs out of state.

I encourage you to protect the interests of today and tomorrow's ratepayers by supporting these important programs.

Thank you for considering my comments.

Sincerely,
Ms. Jane Charette

Conserving through energy efficiency is the smartest way to ensure a supply of clean energy for Arizona. People need knowledge and incentives to act on the correct action. Provide APS what they need to get the job done correctly.

Dear Chairman Pierce and Commissioners,

I am an Arizona Public Service (APS) customer who wants you to support the energy efficiency programs and program budgets proposed by APS in their energy efficiency implementation plan.

My husband and I have already invested in efficiency on our own home and it was one the smartest actions we have ever taken. And we did it because of the support of APS. Not only did efficiency lower our bill, but made our house much more comfortable. That option should be available to everyone.

I am willing to invest in energy efficiency on my bill because I understand that energy conservation programs will keep energy costs lower for everyone, reduce pollution and water use, and create jobs in my community. If we don't invest in energy efficiency, we guarantee ourselves higher energy bills in the future as APS will build unnecessary infrastructure and buy more fuel from and send jobs and revenue out of state.

I encourage you to protect the interests of today and tomorrow's ratepayers by supporting these important programs.

Thank you for considering my comments.

Sincerely,
Ms. Joni Bosh

**RE: Consumer comments in support of APS Programs and Program Budgets,
E-01345A-11-0232**

Dear Chairman Pierce and Commissioners,

I am an Arizona Public Service (APS) customer who wants you to support the energy efficiency programs and program budgets proposed by APS in their energy efficiency implementation plan.

I am willing to invest in energy efficiency on my bill because I understand that energy conservation programs will keep energy costs lower for everyone, reduce pollution and water use, and create jobs in my community. If we don't invest in energy efficiency, we guarantee ourselves higher energy bills in the future as APS will build unnecessary infrastructure and buy more fuel from and send jobs out of state.

I encourage you to protect the interests of today and tomorrow's ratepayers by supporting these important programs.

Thank you for considering my comments.

Sincerely,
Mr. Peter Newton
