Re: ***XO Communications Services, Inc. Arizona Tariff No. 7 Revisions***
Docket No. T-04302A-12-0048

Dear Mr. McNeil:

Enclosed please find for filing an original and thirteen (13) copies of XO Communications Services, Inc. ("XO") Arizona Tariff No. 5 revisions. This filing corrects mark tariff language for treatment of Toll VoIP-PSTN Traffic previously filed.

The following pages are included with this filing:

2nd Revised Page 7 Original Page 11.6

This tariff is being filed with an issued date of February 13, 2012 and effective date of March 14, 2012.

Also enclosed is an additional copy and a self-addressed stamped envelope, please return a date-stamped copy of this letter in the envelope provided. Should you have any questions, please contact me by telephone at 703-547-2615 or by email at sharon.e.adams@xo.com.

Sincerely,

Sharon Adams
Senior Regulatory Analyst

ACCESS SERVICE

SECTION 1 - DEFINITIONS, (CONT'D.)

City - For the purposes of this tariff, the term City denotes a specific geographic area served by the Carrier. A City is typically a metropolitan area and may include one or more adjacent or nearby areas in which the Carrier has network facilities.

Collocation - Carrier facilities and/or equipment located in the same building -- generally a LEC central office.

Commission - Refers to the Arizona State Corporation Commission, unless otherwise indicated.

Communications System - Denotes channels and other facilities which are capable of communications between terminal equipment provided by an entity other than the Company.

Company - Denotes XO Communications Services, Inc. and /or any Concurring Carriers.

Company's Network - Equipment, cabling, and/or connections owned, leased or otherwise used by the Company or the Company's agents to provide service to the Customer pursuant to this tariff.

Customer - Any person, firm, corporation, government entity or other entity which subscribes to or uses, and is therefore responsible for the payment of charges and compliance with the Company's regulations, the services offered under this tariff, including both Interexchange Carriers (IXCs) and End Users, and other carriers or providers that originate or terminate Toll VoIP-PSTN Traffic, or otherwise exchange Toll VoIP-PSTN Traffic with the Company.

(N)
|
(N)

Customer Designated Premises - The premises specified for termination of Access Services.

Customer Point of Presence - The physical location associated with the Customer's communication system.

Dedicated Access - A method for a Customer to directly connect a location of their choice to an XO switch site with non-switched services.

Dual Tone Multifrequency (DTMF) - Tone signaling, also known as touch tone signaling.

End User - Any customer of an intrastate communications service that is not a common carrier; provided that a common carrier other than a telephone company shall be deemed to be an "end user" when such common carrier uses a communications service for administrative purposes, and a person or entity that offers communications service exclusively as a reseller shall be deemed to be an "end user" if all resale transmissions offered by such reseller originate on the premises of such reseller.

End Office Switch - A Company switching system where station loops are terminated for purposes of interconnection to each other and to trunks.

Entry Switch - First point of switching.

ACCESS SERVICE

SECTION 2 - TERMS AND CONDITIONS**2.3 Obligations to the Customer, (Cont'd.)****2.3.2 Call Signaling**

Depending on the signaling system used by the Customer in its network, the Customer's facilities shall transmit the following call signaling information, consistent with the requirements of 47 C.F.R. § 64.1600 et seq, as may be amended by the Federal Communications Commission, to the Company on traffic the Customer's end users originate which is handed off for termination on the Company's network.

A. Signaling System 7 (SS7) Signaling

When the Customer uses SS7 signaling, it will transmit the Calling Party Number (CPN) or, if different from the CPN, the Charge Number (CN) information in the SS7 signaling stream.

B. Multi-Frequency (MF) Signaling

When the Customer uses MF signaling, it will transmit the number of the calling party or, if different from the number of the calling party, the Charge Number (CN) information in the MF Automatic Number Identification (ANI) field.

C. Internet Protocol (IP) Signaling

When the Customer uses IP signaling, it will transmit the telephone number of the calling party or, if different from the telephone number, the billing number of the calling party.
