RE: Consumer comments in support of Tucson Electric Power's Energy Efficiency Programs and Program Budgets, E-01933A-11-0055

Dear Chairman Pierce and Commissioners,

I am a Tucson Electric Power customer who wants you to support the energy efficiency programs and program budgets proposed by TEP in their energy efficiency implementation plan.

I am willing to invest in energy efficiency on my bill because I understand that energy conservation programs will keep energy costs lower for everyone, reduce pollution and water use, and create jobs in my community. If we don't invest in energy efficiency, we guarantee ourselves higher energy bills in the future as TEP will build unnecessary infrastructure and buy more fuel from and send jobs out of state.

Programs such as home energy audits, weatherization, and Energy Star lighting can make a huge difference on the electric bills for me and other TEP customers.

I do not support allowing TEP to opt out of the Energy Efficiency Standard requirements. It should be promoting the strongest energy efficiency programs possible and seeking a full decoupling program in its next rate case.

I encourage you to protect the interests of today and tomorrow's ratepayers by supporting these important energy efficiency programs.

Sincerely

Carl Kanun MD
