Re: Smart meter Accommodations

I, B. Robert Crago PhD, am a licensed psychologist in Arizona. I have worked as a specialist in the area of behavioral medicine for the past 31 years in Tucson, Arizona. My specialist have included the evaluation and treatment of numerous individuals with environmental sensitivities to chemical and electromagnetic pollution. I have conducted research and published peer-reviewed articles on the health effects of exposure to environmental toxins. I serve as an advisor to the Human Ecology Action League of Southern Arizona. As a certified Disability Analyst, I have conducted numerous evaluations of those who have become disabled because of exposures to environmental toxins.

I am aware that "smart Meters" are now being installed by the utility companies. These devices can cause adverse health effects due to increased radiofrequency radiation exposure to a number of individuals. Vulnerable individuals include those who have already become disabled due to exposure to environmental toxins and electromagnetic pollutions. Other vulnerable individuals include children, developing fetuses, the elderly, and individuals with autoimmune diseases.

This letter is written to request appropriate accommodations for those who are already disabled and/or those who are vulnerable. Specifically, these individuals should not have smart meters installed in their homes or businesses.

If you have any other questions please feel free to contact me.

B. Robert Crago PhD.
