The majority of the people left living in this picacho area are elderly and on a fixed income as we are. We do not feel that we should be penalized for the department of transportation buying the property and leaving the picacho water improvement corporation in a deficit. Department of Transportation should have been or should be held responsible for the deficit. We do not want our water rates increased as we cannot afford this rate increase. We are elderly and we live on a fixed income. We will be put on a hardship if our water is increased.
