Pima Utility Company
W-02199A-11-0329
SW-02199A-11-0330

Good Afternoon Mr. Ross,

Any input you have can be submitted to The Chairman's office and will be added to the record of the case. All of the Commissioners will receive a copy. Though they cannot respond, they do read and consider all correspondence.

I have only become aware of this law recently. It is not your fault but laws like this are a great way to stifle discussion and valid input. Very unfortunate.

Good Morning Mr. Ross.

The Commissioner's position is quasi judicial. They sit in an appellate position to the administrative law judge. Any matter before The Commission that has been set for hearing is covered by the exparte rule and it is inappropriate for Commissioners (as it would be for any other judge) to make comments. your communications have been added to the docket and will be part of the record in the case.

Subject: FW: Pima Utility

What seems to be the problem? I have only heard from Commissioner Burns office and nonthing from Newman, Pierce, Kennedy or Stump? I believe this is a serious issue and I would like to know what youo are doing about it?

Subject: Pima Utility

It is outrageous to even consider a 94.4% water rate increase. Who has ever heard of such a thing? I believe this calls for a public audit of Pima Utility and a full investigation if this is allowed to go forward.

From a personal viewpoint - and from the view of how this will affect Cottonwood - this cannot be allowed.

What is being done on your end to investigate and prevent this from happening?
