DOCKET CONTROL

Good Afternoon,

Chairman Pierce's office had received 76 substantially identical email communications regarding the Tucson Electric Power's Energy Efficiency proceeding (E-01933A-11-0055). The Communications are computer generated and in response to communications sent by The Sierra Club. Attached is a sample of the email received and a list of the names of those submitting comments.

Antonio Gill

Subject: Consumer comments in support of TEP's Modified Energy Efficiency Plan & Program Budgets, E-01933A-11-0055

Jun 2, 2012

Commissioner Gary Pierce
1200 W. Washington St.
Phoenix, AZ 85007

Dear Commissioner Pierce,

I am a Tucson Electric Power (TEP) customer who wants you to support the energy efficiency programs and program budgets proposed in the TEP Modified Energy Efficiency Plan.

I am willing to invest in energy efficiency on my bill because I understand that energy conservation programs will keep energy costs lower for everyone, reduce pollution and water use, and create jobs in my community. If we don't invest in energy efficiency, we guarantee ourselves higher energy bills in the future as TEP will build unnecessary infrastructure and buy more fuel from and send jobs out of state.

Programs such as home energy audits, weatherization, and Energy Star lighting can make a huge difference on the electric bills for me and other TEP customers.

I do not support allowing TEP to opt out of the Energy Efficiency Standard requirements. It should be promoting the strongest energy efficiency programs possible and seeking a full decoupling program in its next rate case.

I encourage you to protect the interests of today and tomorrow's ratepayers by supporting these important energy efficiency programs.

Thank you for considering my comments.

Sincerely,

Ms. Majill Weber
