SUMMARY

TerraCom, Inc. (“TerraCom”) submits this Second Revised Compliance Plan in place of its earlier filed Revised Compliance Plan (March 16, 2012), in order to demonstrate how it plans to comply with the new obligations imposed on Lifeline-only ETCs as part of the Commission’s recently released *Lifeline Reform Order*. In submitting this Second Revised Compliance Plan, TerraCom seeks to benefit from the Commission’s grant of “blanket forbearance” from Section 214(e)(1)(A) of the Communications Act of 1934, as amended (the “Act”), to telecommunications carriers seeking limited ETC designation to offer Lifeline services, regardless of the facilities used to provide the services. Accordingly, TerraCom also seeks the Commission’s approval of its Petition for ETC Designation, as amended, for the states of Alabama, Connecticut, Delaware, Florida, New Hampshire, New York, North Carolina, Tennessee, the Commonwealth of Virginia, and the District of Columbia.

In this submission, TerraCom explains that in many instances, it is already operating largely in compliance with the Commission’s new rules. Nonetheless, TerraCom will describe (for all the major rule changes the Commission adopted in the *Order*) how it plans to comply with the Commission’s new rules.

TerraCom has considerable experience operating as both a wireline and wireless Lifeline-only ETC. It is currently in compliance with all federal and state rules in the states of Arkansas, Indiana, Iowa, Louisiana, Maryland, Nevada, Oklahoma, Texas, West Virginia, Wisconsin, and the Commonwealth of Puerto Rico, where it has been designated an ETC by the state or territory commissions. As a Lifeline-only ETC, operating successfully within the Commission’s existing rules, TerraCom has given considerable thought towards how it will comply with the Commission’s recently-adopted new rules for Lifeline-only ETCs.

In its *Lifeline Reform Order*, the FCC imposed a number of changes to its existing rules in order to ensure that Lifeline consumers receive all the same public safety benefits that are available to other telecommunications services consumers, and to ensure that carriers operate in a manner that facilitates prudent Fund administration by the USAC. Among other obligations imposed, the Commission explicitly requires all Lifeline-only ETCs to 1) provide 911/E911-compliant handsets to all their customers, 2) describe their service offerings and the areas in which these services are available, and 3) explain how the ETC plans to comply with the other major rule changes adopted in this *Order*.

TerraCom believes that it is already in compliance with the 911/E911 handset obligations imposed by the *Order*, and it will continue to comply with these obligations. Moreover, TerraCom also describes its company-wide, and state-specific, Lifeline service offerings in this document.

The most significant information provided in this Second Revised Compliance Plan explains how TerraCom will implement the many major rule changes in this *Order*. Among these rule changes, one of the largest involves how TerraCom enrolls customers, specifically how it plans to obtain customer information, customer consent to use this information pre-enrollment for the purposes of determining that the customer's household does not already receive any other Lifeline-supported services, and to verify whether the customer is eligible for Lifeline enrollment under either a supported program, or by virtue of income qualification.

To this end, TerraCom has adopted a new customer certification form, a copy of which is attached as Exhibit 1. This new customer certification form will be the focus of all initial customer contact, regardless of how the customer chooses to initiate contact with TerraCom—whether through a TerraCom retail store, online, or over the phone. Additionally, TerraCom has

adopted a new eligibility certification practice in order to comply with the Commission's new rules designed to protect the integrity of the Fund. TerraCom will, as the Commission's new rules require, first check the National Lifeline Accountability Database to determine that the customer's household is not already receiving a Lifeline-supported service. TerraCom will then continue to use (where available) state eligibility databases or employee verification of the customer's program/income-based eligibility.

For successfully enrolled customers, and for all its existing customers, TerraCom has adopted new procedures to ensure that a customer re-certifies eligibility as required (either every 90 days for customers enrolling using a temporary address, after 60 consecutive days of non-usage, or annually), by contacting TerraCom through a number of convenient channels (in-person, over the phone, via return text, email, or online, using TerraCom's website.

Correspondingly, TerraCom has also developed procedures to promptly de-enroll Lifeline customers when notified by the Administrator that the customer's household is receiving duplicative supported services, or when a customer fails to timely recertify ongoing eligibility.

TerraCom is also modifying its internal data collection/customer account databases in order to be able to comply with the many new record keeping requirements imposed by the Commission's *Order*. The Commission has specified a number of new requirements that will better facilitate an ETC's ability to respond to an audit request, or to conduct its own internal audits periodically. TerraCom is also modifying its customer-specific, and company-wide, databases so as to facilitate quicker and easier retrieval of the information necessary to comply with the Commission's new reporting requirements.

The Commission's new rules also impose several other "new" requirements on ETCs, which TerraCom is already in compliance with, or with which TerraCom can easily comply.

These new requirements include providing additional information on Lifeline eligibility and terms of receiving the federal assistance on all new advertising materials. To demonstrate compliance with this new obligation, TerraCom has included a sample of the information it will include on all new marketing materials.

The Commission, in its *Order* and new rules, also changed and standardized the Lifeline reimbursement procedures for all ETCs. Under the new rules, all carriers must limit requests for reimbursement to those customers that they actually served in the past month—also known as “actual” reimbursement (vs. the previously-acceptable scheme of allowing carriers to receive advance reimbursement for “projected” customers). TerraCom will move to operating on an “actual” reimbursement schedule in accordance with the process set forth in the *Order*.

Finally, the Commission also imposes a requirement that service providers seeking to receive Lifeline subsidies be able to demonstrate that they are technically and financially capable of providing Lifeline-supported service. TerraCom has been providing service to, primarily, low income customers since first being designated an ETC in 2004. TerraCom is a profitable firm, is in good standing with all its vendors so as to ensure its ability to provide customers with safe and reliable service, and has been providing telecommunications services to its customers, in compliance with applicable federal and state regulations for 8 years.

Accordingly, upon the demonstrated intent and ability to comply with the Commission’s newly-adopted Lifeline obligations described in the foregoing Second Revised Compliance Plan, TerraCom asks that the Commission promptly approve this Plan and allow TerraCom to operate as a beneficiary of the “blanket forbearance” grant extended to all qualifying providers under the *Lifeline Reform Order*. Upon approval of this Second Revised Compliance Plan, TerraCom also asks that the Commission grant its pending Amended Petition for Limited ETC Designation.

SECOND REVISED COMPLIANCE PLAN OF TERRACOM, INC.

I. INTRODUCTION

TerraCom, Inc. (“TerraCom”), by its undersigned counsel, hereby submits this revised plan¹ to comply with the new legal obligations imposed on telecommunications carriers by the Federal Communications Commission (“FCC” or the “Commission”) in its Order reforming and modernizing the Lifeline and Link Up programs of the Universal Service Fund (“USF”).² In its

¹ TerraCom previously filed a Revised Compliance Plan in the above-referenced dockets on March 16, 2012. It now seeks to replace its Revised Compliance Plan with this Second Revised Compliance Plan. Thus, TerraCom is withdrawing its previous Revised Compliance Plan.

² *In the Matter of Lifeline and Link Up Reform and Modernization; Lifeline and Link Up; Federal-State Joint Board on Universal Service; Advancing Broadband Availability Through Digital Literacy Training, Report and Order and Further Notice of Proposed Rulemaking*, Docket Nos. 96-45, 03-109, 11-42, and 12-23, January 31, 2012 [rel. February 6, 2012]. (“*Lifeline Reform Order*” or “*Order*”).

Lifeline Reform Order, the Commission granted “blanket forbearance” from Section 214(e)(1)(A) of the Communications Act of 1934, as amended (the “Act”), to all telecommunications carriers seeking limited ETC designation to offer Lifeline services.³

TerraCom has a Petition for Limited ETC Designation pending at the Commission, and requests that, concordant with Commission grant of this Second Revised Compliance Plan, the Commission also approve its Pending Amended ETC Petition.⁴

All telecommunications carriers are eligible to receive blanket forbearance on the condition that the carriers seeking the blanket forbearance agree to submit a compliance plan, subject to the approval of the Wireline Competition Bureau (“the Bureau”), describing how they intend to comply with the Commission’s new requirements for participating in the Lifeline program.⁵ As explained below, TerraCom will fully comply with the conditions imposed in the *Lifeline Reform Order* to ensure that the Commission’s concerns regarding consumer safety and the fiscal integrity of the Universal Service Fund (“the Fund”) are completely satisfied. Accordingly, and because TerraCom has several state Lifeline-only ETC applications pending (and which are now dependent on the Commission’s approval of TerraCom’s Second Revised

³ See, *Lifeline Reform Order*, ¶¶ 368-391.

⁴ See, *Petition of TerraCom, Inc. for Limited Designation as an Eligible Telecommunications Carrier in the States of Alabama, Connecticut, Delaware, New Hampshire, New York, North Carolina, Tennessee, the Commonwealth of Virginia, and the District of Columbia*, WC Docket No. 09-197, filed June 13, 2011. This *Petition* was subsequently amended on June 28, 2011 to include the state of Florida, and again on April 18, 2012 to update it in light of the Commission’s recent rule changes affecting Lifeline-only ETCs. While TerraCom’s Petition for Limited ETC Designation originally sought Link Up support, in addition to Lifeline support, this portion of its request has been rendered moot by the *Lifeline Reform Order*, and is hereby withdrawn. TerraCom still seeks Lifeline-only designation in the above-mentioned jurisdictions for which the Commission is the proper designating authority, because the states lack the authority to perform such designation for wireless telecommunications service providers seeking designation.

⁵ See, *Lifeline Reform Order*, ¶¶ 368-391.

Compliance Plan⁶), it is TerraCom's sincere desire that the Commission act expeditiously to approve its Second Revised Compliance Plan.

II. TERRACOM BACKGROUND AND CORPORATE STRUCTURE

TerraCom began providing retail landline telecommunications service in 2004. TerraCom is a corporation, based in Oklahoma City, Oklahoma, and incorporated under the laws of Oklahoma. In 2010, TerraCom's shareholders became investors in another competitive wireline/wireless service provider called YourTel America, Inc. ("YourTel"), which was based in Kansas City, Missouri. TerraCom and YourTel are separate companies with some common shareholders. TerraCom and YourTel are not owned wholly in common. Neither TerraCom, nor YourTel, operates as a holding company, and neither firm has affiliate companies.

With TerraCom's years of experience focusing on providing high quality telecommunications services to low income consumers, TerraCom became one of the first competitive ETCs in 2004. Today, TerraCom provides both landline and wireless service to well over 200,000 customers as an ETC in Arkansas, Indiana, Maryland, Nevada, Oklahoma, Texas, West Virginia, Iowa, Louisiana, Puerto Rico and Wisconsin. While TerraCom specializes in providing superior service at affordable rates to low income consumers, and is a "Lifeline-only" ETC, its customers are not exclusively Lifeline-supported. In most states, TerraCom's service territory is limited to the area served by the large incumbent LECs (which are required under the Act to lease pieces of their networks to competitive carriers at cost-based rates).

TerraCom prefers direct contact with consumers and will use outreach events, direct sales, neighborhood agents, and TerraCom branded or authorized retail outlets. TerraCom's specialty is in identifying underserved customers through serving communities by local outreach,

⁶ *Lifeline Reform Order*, at ¶ 380.

and by becoming part of the communities it serves. To this end, TerraCom does not offer its services through “chain” stores, but rather through its own store, and locally-owned stores familiar with the underserved consumers in the communities TerraCom serves. TerraCom sells the remainder of its service through Internet sales/inbound telemarketing (where a customer is seeking to initiate service with TerraCom).

Consistent with Commission and industry trend data, TerraCom has found that consumers—including low income consumers—are migrating away from wireline telecommunications service and towards mobile wireless services. In its existing service territories, TerraCom offers wireless service to consumers by using a combination of its own facilities, leased wireline facilities, and the wholesale wireless services of Sprint Spectrum, LLC and Cellco Partnership d/b/a Verizon Wireless.

As an ETC, and provider of telecommunications services to its customers, TerraCom has an impeccable reputation. It has never been subject to sanctions by a state or the FCC, and—while no carrier is without its mistakes or errors—TerraCom has auditing systems in place, has been diligent in performing its obligations as an ETC, and has caught its few errors before they were ever submitted to USAC for reimbursement. This information, coupled with certain other detailed demonstrations made, *infra*, helps to establish TerraCom’s financial and technical capability to provide the supported service.⁷

Moreover, as part of the overall carrier certifications required by the *Order* and its rules, TerraCom commits to comply with the Cellular Telecommunications and Internet Industry

⁷ See, e.g., *Lifeline Reform Order*, ¶388 (whether a carrier has been the subject of an enforcement action is relevant to financial/technical capability to provide Lifeline service under new rule §54.202(a)(4).)

Association's Code for Wireless Service.⁸ Thus, TerraCom has the intention and demonstrated ability to fastidiously comply with the Commission's new requirements for Lifeline-only ETCs.

III. OBLIGATIONS IMPOSED ON ETCs BY THE *LIFELINE REFORM ORDER*

In order to continue to offer low income service and qualify for future state and/or federal Lifeline-only ETC designations, TerraCom wishes to avail itself of the Commission's conditional grant of blanket forbearance and obtain approval of its Second Revised Compliance Plan. In its *Lifeline Reform Order*, the Commission explains that carriers seeking Lifeline-only ETC designation must, as part of their compliance plans, describe how they intend to implement certain conditions specified in the *Order*, as well as explain how the carrier plans to comply with the new rules, generally. The conditions (both broadly and specifically) established by the Commission tend to focus on ensuring that consumers are protected, and that carriers will do their best to ensure that they (and their customers) cooperate fully in assisting with prudent, efficient administration of the Low Income Fund by the Universal Service Administrative Company.

In paragraphs 368 through 391, the FCC sets forth the conditions that carriers must satisfy in order to receive approval of their compliance plans, and the corresponding blanket forbearance allowing them to be granted Lifeline-only ETC designation by the states or the Commission. The conditions established by the Commission range from the very specific, such as requiring carriers to provide all customers receiving Lifeline-supported service with access to 911 and E911 service (regardless of activation status or available minutes) as well as E911-

⁸ See, 47 C.F.R. § 54.202(a)(3).

compliant handsets⁹, to the ubiquitously general (requiring compliance plans to describe “the measures the carrier will take to implement the obligations contained in this *Order*”).¹⁰

In this Second Revised Compliance Plan, TerraCom will describe in detail how it plans to comply with the rule changes made in the *Lifeline Reform Order*. Specifically, TerraCom will address the Commission’s concerns regarding how it intends to comply with: 1) the Commission’s 911/E911 service requirements¹¹, 2) providing a detailed description of its Lifeline-supported service offerings¹², and 3) outlining the measures it will take to implement the more significant changes in the Order.¹³ The large majority of changes imposed by the *Order*, and the Commission’s new rules implementing the *Order*, are addressed in this Second Revised Compliance Plan, which will describe the way TerraCom plans to: a.) enroll customers, including a description of how TerraCom will: i) initially qualify customers’ eligibility to prevent duplicate subsidies being awarded to the same household, ii) initially qualify customers’ eligibility to make sure that only program, or income, eligible customers are able to receive service; iii) how TerraCom intends to annually certify its customers continued eligibility, including procedures for annual re-certification¹⁴, b) TerraCom’s procedures to de-enroll customers who no longer meet the eligibility requirements to receive Lifeline service, customers who have failed to use a free service within a continuous 60 day period, and customers who have

⁹ See, e.g., *Lifeline Reform Order*, ¶ 373.

¹⁰ *Id.* at ¶ 379.

¹¹ *Id.* at ¶ 373.

¹² *Id.* at ¶368.

¹³ *Id.*

¹⁴ *Id.* at ¶¶379, 383, n.1004. TerraCom will, of course, also re-certify those customers that enrolled using temporary addresses every 90 days.

failed to re-certify their continued Lifeline eligibility as part of an annual (or 90 day, for customers initially enrolling with temporary addresses) re-certification process¹⁵, c) the records that TerraCom will keep to facilitate efficient audits of TerraCom's customer base¹⁶, as well as the customer data TerraCom will collect to satisfy its reporting requirements to USAC (and to allow it to further cooperate with USAC should additional information be needed); d) TerraCom's proposed procedures for submitting and collecting reimbursements from USAC; e) providing copies of its marketing materials that describe the customer eligibility requirements for Lifeline (both income and one per household), the continued obligation of customers to notify TerraCom of changes in their address, changes effecting eligibility, the customer's obligation to initially certify eligibility and to annually re-certify eligibility under penalty of perjury; and f) TerraCom's technical and financial capability to provide Lifeline-supported services to low income customers.¹⁷

A. Customers of TerraCom Lifeline-Supported Services Will Have Access to 911/E911 Service and Will Receive E911 Compatible Handsets

In its *Lifeline Reform Order*, the Commission (as it has in all of its previous forbearance grants) requires carriers seeking "blanket forbearance" to provide—as a condition to the forbearance grant—911 and (where available) E911 service to customers regardless of the activation status of their service plans.¹⁸ Thus, regardless of whether the customer has any remaining minutes on their monthly service plan, the customer must be able to use emergency services.

¹⁵ See, 47 C.F.R. § 54.405(e)

¹⁶ *Lifeline Reform Order* at ¶379.

¹⁷ *Id.* at ¶¶379. 383, and 390.

¹⁸ *Id.* at ¶373.

TerraCom supports the Commission's reasoning in requiring this condition, and, is aware that this requirement—that customers always have access to the technologically-mandated emergency access on all active mobile phones—is a current obligation the Commission imposes on all wireless providers for their customers.¹⁹ TerraCom understands that mobile wireless service is much less valuable to its customers if the customer cannot rely on their TerraCom mobile service for emergency situations, and TerraCom already complies with this obligation.

Another public safety-related condition, routinely required by the Commission, is for carriers receiving forbearance to ensure that all Lifeline-only customers have access to E911-capable handsets.²⁰ This is another condition that is already a TerraCom policy, and comes with all TerraCom mobile wireless services (both Lifeline-supported, and non-Lifeline-supported). TerraCom currently complies with this condition and automatically provides each new customer with an E911-capable handset. In fact, TerraCom has no non-E911-compliant handsets in its inventory. Nonetheless, if TerraCom discovers any Lifeline-supported customers that do not have a handset that is E911-capable, TerraCom will promptly replace that handset with a compliant handset. Similarly, if TerraCom has any non-Lifeline-supported customers that are eligible for, and wish to convert their service to, mobile wireless Lifeline service, TerraCom will provide these customers with E911-capable handsets.

Finally, the Commission requires Lifeline-supported carriers to comply with both of these conditions as of the effective date of the *Order*. TerraCom is currently in compliance with both 911/E911-related conditions, and will still be in compliance when the *Order* becomes effective.

B. Description of TerraCom's Lifeline Service Offerings

¹⁹ See, generally, 47 C.F.R. § 20.18.

²⁰ *Lifeline Reform Order* at ¶373.

The Commission requires that every carrier seeking blanket forbearance submit a compliance plan containing detailed information regarding its Lifeline-supported service offerings, including terms of service and the geographic areas where the services are available²¹ TerraCom offers all supported services, throughout the Sprint Wireless Service Area footprint and that of Verizon Wireless, in Arkansas, Indiana, Iowa, Louisiana, Maryland, Nevada, Oklahoma, Texas, Puerto Rico, West Virginia, and Wisconsin. All 611 and 911 calls are free, and do not count against the customer's airtime. Directory assistance calls (411) are "free"; however, applicable airtime charges are assessed as minutes of usage.

TerraCom offers three basic Lifeline service packages throughout all of its service territories, except Oklahoma. In addition, TerraCom offers two plans that are only available to Oklahoma residents. TerraCom's basic Lifeline programs are listed below. These plans are taken directly from the TerraCom Wireless website.²²

Lifeline Free Plan 68

Each month you will receive 68 free voice minutes. Text messaging will be assessed at a rate of 0.3 minutes per text message for sending and 0.3 minutes per text message for receiving text messages. Unused minutes will rollover from month to month, see terms and conditions for more information. This plan is not available to new subscribers and existing subscribers may change to any plan they choose.

Lifeline Free Plan 125

Each month you will receive 125 free voice minutes. Text messaging will be assessed at a rate of 1 minute per text message for sending and 1 minute per text message for receiving text

²¹ *Lifeline Reform Order*, at ¶368.

²² www.terracomwireless.com/plans/lifeline-free-plans/

messages. Unused minutes will rollover from month to month, see [terms and conditions](#) for more information. This plan is not available to new subscribers and existing subscribers may change to any plan they choose.

Lifeline Free Plan 250

Each month you will receive 250 free voice minutes. Text messaging will be assessed at a rate of 1 minute per text message for sending and 1 minute per text message for receiving text messages. There are no rollover minutes with this plan. Unused minutes will expire each month on the service expiration date. This plan is available in all states where TerraCom Wireless offers service except in tribal areas of Oklahoma.

Oklahoma Lifeline Unlimited Plan

Each month you will receive unlimited voice minutes for \$6.20 per month plus fees and taxes. Text messaging will not be available with the unlimited talk plan. There are no rollover minutes with this plan. Unused minutes will expire each month on the service expiration date. This plan is only available to Oklahoma residents.

Oklahoma Lifeline 1000 Plan

Each month you will receive 1000 voice minutes or 1000 text messages for \$1.00 per month plus fees and taxes. Text messaging will be assessed at a rate of 1 minute per text message for sending and 1 minute per text message for receiving text messages. There are no rollover minutes with this plan. Unused minutes will expire each month on the service expiration date. This plan is only available to Oklahoma residents.

With all TerraCom Lifeline service plans, additional minutes are available for as low as \$.05/minute. This low per minute rate does not require the customer to purchase an

unreasonably large amount of minute, but can be obtained with a purchase of only 200 additional minutes for \$10.00. The lowest incremental purchase of minutes is 60 minutes for \$5.00.

Moreover, each TerraCom subscriber can select a phone—either a free phone (choices include refurbished phones, as well as refurbished smartphones such as the Blackberry Curve® and in the future new phones), or purchase an upgraded phone from a wide inventory. For those customers choosing the smartphone, data can be added to any phone plan starting at \$1.25/megabyte—a price that can be reduced on a “per/megabyte” basis when the customer purchases multiple megabytes of data.

Thus, TerraCom has demonstrated that it offers a number of “no contract” plans for Lifeline users that provide for flexibility based on the particular consumer’s usage pattern. TerraCom also allows low income customers to add affordable data usage to these free voice/text minutes—facilitating greater smartphone utilization, consistent with the Commission’s goal of promoting broadband access to all Americans.

C. TerraCom’s Plans To Implement New Lifeline Provider Obligations

As previously noted, one of the Commission’s requirements for all compliance plans it requires to be submitted in order to benefit from the grant of “blanket forbearance” in the *Order* is for the carrier to describe how it will comply with the remainder of the new obligations imposed on Lifeline participants in the *Order*. In this section, TerraCom will explain how it plans to implement the new obligations in the *Order*, and incorporate those obligations into TerraCom’s existing processes for enrollment, de-enrollment, record keeping/re-certification, seeking reimbursement from USAC, and marketing service to eligible consumers. TerraCom will also demonstrate that it is technically and financially capable of providing Lifeline service to consumers.

1. Enrollment

By way of background, the *Order* requires each prospective customer to apply for Lifeline service. The Commission has changed its procedures for how carriers must qualify customers for enrollment in the Lifeline program, and how customers must certify their eligibility. The Commission, for the first time, has established uniform eligibility and application criteria for enrolling low-income customers in the Lifeline program. In the *Lifeline Reform Order*, the FCC integrated and standardized the eligibility and certification criteria through the establishment of what may be called a uniform application process. Each new prospective customer will have to provide certain information and eligibility certifications as part of an overall application to receive benefits under the Lifeline program.

However, before submitting an application to receive Lifeline-supported service under the Commission's new rules, the ETC providing the Lifeline service must obtain consent from each of its new and existing subscribers to transmit the subscriber's information to the program Administrator. The carrier must explain in clear, and easy-to-understand, language the information that the carrier will have to transmit to the Administrator.²³ If the subscriber refuses to grant the carrier permission to transmit this information to the Administrator, the subscriber will not be eligible to receive Lifeline service.

The application will require each prospective customer to provide all of the information required in revised rule 47 C.F.R. § 54.410(d)(2): the subscriber's full name; the subscriber's residential address; whether the subscriber's residential address is permanent or temporary; the subscriber's billing address (if different from the residential address); the subscriber's date of birth; the last four digits of the subscriber's social security number, or the subscriber's tribal identification number in lieu of a social security number; whether the subscriber is seeking to

²³ See 47 C.F.R. § 54.404(b)(9).

demonstrate eligibility to receive Lifeline service under the program-based criteria, or based on income.

Moreover, as part of the application (and pursuant to revised rule 47 C.F.R. § 410(d)(3)) the prospective subscriber will have to certify under penalty of perjury that: the subscriber meets the income-based or program-based eligibility criteria for receiving Lifeline, explained in § 54.409; the subscriber will notify the carrier within 30 days if for any reason the subscriber no longer satisfies the eligibility criteria, or if the subscriber no longer satisfies the “one subsidy per household” qualification; if the subscriber is seeking to qualify for Lifeline as an eligible resident of Tribal lands, that they actually live on Tribal lands; if the subscriber moves to a new address, they will notify the carrier of their address change within 30 days; if the subscriber provided a temporary address upon sign-up, the subscriber will verify their correct address every 90 days or face de-enrollment; the subscriber’s household will receive only one Lifeline service and, to the best of the subscriber’s knowledge, their household is not already receiving a Lifeline service; the subscriber’s information on their application is true and accurate to the best of their knowledge; the subscriber understands that providing false information to obtain Lifeline benefits is punishable by law; and the subscriber acknowledges that they may be required to re-certify continued eligibility for Lifeline at any time, and that the subscriber’s failure to re-certify will result in de-enrollment and termination of the subscriber’s Lifeline benefits pursuant to § 54.405(e)(4).

TerraCom-Specific Enrollment

As an initial matter, in those few states that have a state administrator, TerraCom will fully cooperate with the state Lifeline administrators to ensure that it does everything necessary to ensure it is in compliance with both state and federal enrollment, verification, and re-

certification procedures. For all states that do not have a Lifeline administrator, TerraCom will perform the same first step in the process of enrollment. Regardless of how the customer applies—whether in a retail store, online, or over the phone, each customer will end up supplying the same information via TerraCom’s standard customer certification form. (Attached as **Exhibit 1.**) This form contains all relevant information required by the Commission’s new rules, and requires the customer to certify, under penalty of perjury, that to the best of the customer’s knowledge all of the information supplied is correct. The customer will also agree to contact TerraCom in the event any information regarding the customer’s ongoing eligibility, or household information, should change.

TerraCom enrolls Lifeline customers through several different marketing channels: 1) in person, through company-owned and affiliated retail stores, 2) in person, through company employees that are retail sales representatives, and 3) through customer-initiated contact, either through inbound telemarketing or (more frequently) through online sales over the Internet. The large majority of TerraCom’s sales are through its “in person” channels.

What is significant is that all of TerraCom’s retail sales are the result of direct contact with the potential Lifeline consumer. The manner in which the sales will be made will be slightly different, but the obligations imposed by the new rules will be addressed directly by TerraCom. Before examining each new enrollment obligation, it will be helpful to explain how TerraCom will interact directly with its customers through each sales channel.

Retail Store. These sales are the most “direct” and easiest to explain how TerraCom will comply with the Commission’s new Lifeline obligations. The prospective customer comes into the store, and is asked the basis for his or her claim to Lifeline eligibility; participation in a qualifying program, or earning household income below 135% of the Federal Poverty

Guidelines. The store employee can verify the customer's program, or income, based eligibility in person. TerraCom provides excellent training/reference materials to its employees—an example of which is attached as **Exhibit 2**—which allows the employees to verify the most common forms of proof for each eligible program and/or income verification (based on the Commission's definition of "income" in §54.400(f)). The store employee will then ask the prospective customer for additional documentation proving identity, and/or address verification. The final program/income eligibility-specific step is for the customer to provide the required information and make the certifications required by new rule §54.410(d)(3).

If the customer appears to be eligible, the employee will explain the Commission's definition of "household", defined in new rule §54.400(h), as an "economic unit" where related or unrelated people share income and expenses. In the case of multiple applicants at the same mailing address, the customer will then make the "one per household" certification required by §54.410(d)(1). Finally, TerraCom will collect the necessary customer-specific information required by new rule §54.401(d)(2) so that TerraCom can report the information to USAC to be used to populate the National Lifeline Accountability Database ("duplicates database"), defined in §54.400(i) of the Commission's new rules.

The retail store employee then enters the customer's information into TerraCom's OSS systems, where the information is checked against available databases (the duplicates database, and TerraCom's own list of existing customers). The retail store rep quickly determines whether the customer is eligible to receive Lifeline service. In cases where a state program eligibility database exists, the retail store personnel will contact TerraCom's internal group dedicated to verifying eligibility who will query the state database and either approve or deny the applicant. Where proof of eligibility is needed, the retail personnel, who are trained on what is eligible

documentation will witness the documentation and sign the application demonstrating they have witnessed the documentation.

Upon successful completion of the certification process, the customer is allowed to choose a service plan, and, as mentioned earlier, select a phone—either a free phone (choices include refurbished phones, as well as refurbished smartphones such as the Blackberry Curve® and in the future new phones), or purchase an upgraded phone from a wide inventory. The customer then receives their phone right at the store, upon payment of a TerraCom’s customary activation fee. The customer’s account is activated upon completion of an outbound call.²⁴ For purposes of “enrollment” in the Lifeline program, TerraCom will use the date of this first completed outbound call from its call records as the customer’s effective start date.

Field Representatives. Frequently, TerraCom will dispatch employees as “field representatives” to underserved communities, where the “field rep” focuses on traditionally underserved low income customers. Opportunities for field reps to reach those customers not on the network range from educational sessions at low income housing, or nursing homes, to sponsoring booths at community events.

The protocol for signing up customers in the field is similar to that of signing up customers in a store, in the sense that the field rep can personally see whether the customer is eligible based on program participation or income qualification. The customer can also provide the requisite information, and sign the required eligibility verifications, from the field. Should a customer in the field be determined to be ineligible but feels that the determination is incorrect; the order can be submitted to TerraCom for review and investigation. In such a case the phone would be mailed to the customers upon approval and the customer can personally activate their service – as in the manner of all TerraCom phones – by completing an outbound call.

²⁴ See, 47 C.F.R. § 54.407(c)(2)(i).

Inbound Channel Marketing. Prospective customers can also apply for, and obtain, Lifeline service from TerraCom either over the phone or through the Internet. Customers choosing to obtain service through inbound channels must either fill out an application online, or provide the relevant information to the customer sales rep over the telephone. In these cases, TerraCom will verify eligibility via a state database, state administrator, or by reviewing documentation of eligibility submitted by the applicant in advance of receiving service. TerraCom will not ship a phone to a customer until it has verified the customer's eligibility. The customer's account is activated upon completion of an outbound call.²⁵ For purposes of "enrollment" in the Lifeline program, TerraCom will use the date of this first completed outbound call from its call records as the customer's effective start date.

Online Sales. To apply for TerraCom Lifeline service online, a customer will fill out an application, provide the necessary information that all prospective Lifeline customers must provide, and be taken through successive screens, which clearly explain all relevant legal eligibility requirements. If the customer is seeking to qualify for Lifeline service based on their participation in a particular program (or income level), the prospective customer may be able to be qualified by an inbound sales rep who inputs the prospective customer's information into an eligibility database (if available for the relevant state). However, in most cases, the prospective customer will fill out the relevant eligibility forms on the computer, and then send in copies of the records needed by TerraCom to verify the customer's eligibility to participate in Lifeline. Once the prospective customer is successfully verified by TerraCom, the customer can be enrolled in the service plan they have chosen, and then mailed their handset. As in all cases, the customer's Lifeline service is not activated until a customer first completes an outbound call using their handset.

²⁵ See, 47 C.F.R. § 54.407(c)(2)(i).

Assuming the customer has successfully completed the online application process, TerraCom will have all the information it needs to verify the customer is only receiving one Lifeline subsidy for their household, to verify eligibility, to satisfy its record-keeping obligations, and to send to USAC in order to populate the duplicates database. The requisite certifications needed by TerraCom to establish service with the prospective customer can be obtained as electronic signatures.²⁶

TerraCom's proposed method of accepting electronic signatures—on all of its online certifications and re-certifications—is to allow the customer to create a unique electronic signature by typing their name, and providing their date of birth and their social security number. The customer's name, combined with their date of birth and their social security number, is sufficiently unique to satisfy the Commission's new rules for accepting electronic signatures.

Inbound Telemarketing. To obtain TerraCom Lifeline service, a customer can call TerraCom to initiate service. The process is very similar to online enrollment, except that instead of being taken through successive screens, the customer is asked a series of qualifying questions by a customer service representative. The questions will all be designed to elicit true and accurate information that is necessary for TerraCom to obtain a complete standard certification form. See Exhibit 1. If, at any time during the conversation, it becomes apparent to the customer service rep that the prospective customer is unlikely to qualify for TerraCom Lifeline service, the customer service rep will explain the issue to the customer and offer to allow the customer to sign up for one of TerraCom's non-Lifeline service plans.

On the other hand, if the customer provides information indicating that the customer would be eligible to obtain Lifeline service, the customer service rep will take the customer as far as possible in trying to qualify the customer. For example, if there are no other Lifeline

²⁶ See, 47 C.F.R. § 54.419.

subscribers in the customer's household, and the customer participates in a Lifeline-eligible program (or is income-qualified), the customer service rep will try to verify the customer's information through a state database (if available). If the customer seems to qualify (through a database query), then the customer service rep will open a file for the customer, take the customer's information that is required to be collected from each customer, send the customer the requisite certification forms for verification of eligibility (or allow the customer to certify eligibility through an IVR recorded and associated with the customer's account), and request copies of the evidence that would prove eligibility in cases where a state database is not available.

As always, if the prospective customer fails to qualify for Lifeline service, TerraCom will explain to the customer why the request was rejected. On the other hand, if the prospective customer sends in sufficient evidence to qualify for Lifeline eligibility, and adequately certifies eligibility, TerraCom will notify the customer, and enroll the customer in their requested service plan, and send the customer the phone they have requested/purchased (if the customer has expressed a handset preference). The customer's account is activated upon completion of an outbound call.²⁷ For purposes of "enrollment" in the Lifeline program, TerraCom will use the date of this first completed outbound call from its call records as the customer's effective start date.

2. De-Enrollment

In order to most efficiently use funds set aside for Lifeline customers, the FCC has adopted rules to ensure that only customers eligible to participate in the Lifeline program receive the benefit of the Lifeline subsidy. These rules require that Lifeline ETCs "de-enroll" customers

²⁷ See, 47 C.F.R. § 54.407(c)(2)(i).

who are no longer eligible to receive Lifeline benefits from the carrier's list of customers for whom Lifeline reimbursement is sought from USAC.²⁸

The Commission's new rule requires carriers to "de-enroll" customers from Lifeline enrollment for several reasons: the carrier has reason to believe that the customer no longer participates in a Lifeline-eligible program, or no longer meets the income-based criteria for Lifeline eligibility, and the customer fails to prove eligibility within 30 days²⁹; the Fund Administrator notifies the ETC that either the customer is receiving Lifeline support from more than one carrier, or that more than one person in the customer's household is receiving a Lifeline subsidy³⁰, the customer has failed to "use" a free service for more than 60 consecutive days³¹; or, the customer has either failed to perform their required annual recertification of continued eligibility, the annual re-certification that the customer is not in violation of the one-per-household rule, or (for customers who provided a temporary address upon enrollment) the customer has failed to re-certify their temporary address within the 90 day window (or failed to provide the carrier with a permanent address within the same time period).³²

With the exception of the situation where an ETC is notified by the Administrator that a customer/customer's household is receiving duplicate support, each basis for de-enrollment requires the carrier to notify the customer that their support is in jeopardy, and provide the customer with 30 days to either refute or cure their apparent ineligibility to receive Lifeline

²⁸ *Id.* at § 54.405(e)(1)-(4).

²⁹ *Id.* at § 54.405(e)(1).

³⁰ *Id.* at § 54.405(e)(2).

³¹ *Id.* at § 54.405(e)(3).

³² 47 C.F.R. § 54.405(e)(4).

support.³³ When an ETC *is* notified that they are receiving duplicative support for a customer that has been confirmed to be ineligible by the Administrator, the ETC has 5 days to remove the ineligible Lifeline recipient from its reimbursement list.

Customers receiving duplicative subsidies not only present a risk to the Fund, but they present a financial risk to TerraCom if customers not eligible for reimbursement are allowed to continue to use their phones, and thereby raise TerraCom's unrecoverable costs. Because it is in TerraCom's self-interest to immediately remove from its Lifeline roles those customers identified by the Administrator as disqualified from receiving Lifeline service, TerraCom will further explain how it will comply with this new obligation.

Putting aside those subscribers recovering duplicative support, *every* qualifying Lifeline subscriber is subject to de-enrollment for reasons both completely outside the ETC's control (*e.g.*, customers failing to use service and customers no longer qualifying for the subsidy), and for reasons that can be avoided if the customer has sufficient notice to comply with the rules. For this reason, TerraCom has adopted procedures to help deserving customers to avoid undeserved de-enrollment, and procedures for quickly removing subscribers that the Administrator has determined to be wasting Lifeline funds.

When TerraCom establishes a customer account, it also places a Lifeline start date on the account consistent with the date of the customer's first outbound call, based on the potential vulnerabilities of the customer to undeserved de-enrollment. For example, every Lifeline account is subject to recertification on an annual basis that: the subscriber still meets the criteria to be considered a qualifying low-income customer under §54.409, and that the subscriber's household is not receiving more than one Lifeline subsidy. Thus, every Lifeline subscriber

³³ *Id. at* § 54.405(e)(1).

should receive (through multiple channels) an advance reminder that they must re-certify annually, along with an explanation of the many convenient ways that TerraCom offers customers to re-certify. TerraCom allows customers to re-certify via dialing a toll free number (IVR), return text, email, regular mail, and online through TerraCom's website.

Moreover, once the duplicate database is up and working, TerraCom will be able to perform certifications for its customers that have qualified through a database query. Regardless, though, it is clear that TerraCom, and many other Lifeline-only ETCs, will be sending out annual re-certification requests on a daily basis.

Annual re-certifications are required for all customers, but TerraCom also creates an advance reminder for customers that have established their accounts using a temporary address. Customers establishing service with a temporary address are potentially difficult to remain in contact with, so TerraCom sends out text notifications to these customers on a monthly basis.

Similarly, since many—if not most—of TerraCom's Lifeline customers do not pay a regular monthly bill, TerraCom has tracking software to notify the customer if the customer has not used their service for more than 60 consecutive days. These notifications are not only helpful to ensure that the customer does not risk losing their phone by failing to use their phone, but the notifications also help the customer become more aware of their own usage patterns, which might cause the customer to choose a different plan (for example, a plan with less monthly minutes, but minutes that "rollover" to the next month). After notification, if the customer fails to use the phone, it is automatically disconnected by the system.

3. Recordkeeping Requirements

In adopting the *Lifeline Reform Order* the Commission, to paraphrase Commissioner McDowell's separate statement, takes the large step of imposing accountability on a government

entitlement program. In its directives for what should be included in a carrier's compliance plan, as described in Paragraphs 368-391, the Commission frequently states that it would like carriers to explain and describe how they will comply with the rule changes in the *Order*. If accountability equals recordkeeping, then this section is perhaps the most challenging and comprehensive of this entire Second Revised Compliance Plan.

While only one section of the new rules, §54.417 is specifically entitled "record keeping", most of the rule changes either create new records and/or create new recordkeeping requirements. For purposes of organizing TerraCom's explanation of how it intends to comply with the new recordkeeping obligations imposed under the *Order*, TerraCom will divide records into "individual account records" and "company-wide records". The theory behind this organization of TerraCom's explanation of how it will meet the Order's recordkeeping requirements is that, for reporting purposes, TerraCom is required to report on both individual account compliance (on a company-wide basis), company wholesale compliance, and company-wide performance compliance.

i. Individual Account Records

For each individual Lifeline account, TerraCom will keep customer records for the entire length of time the customer remains in the Lifeline program, and for certain records within the individual accounts, TerraCom will keep customer records for 10 years following customer de-enrollment from the Lifeline program.³⁴ TerraCom will keep the following records for each subscriber's individual Lifeline account:

--date that TerraCom queried the duplicates database³⁵;

³⁴ See generally, 47 C.F.R. § 54.417, and *Lifeline Reform Order*, Appendix B, proposed rule § 54.417.

³⁵ 47 C.F.R. § 54.404(b)(1).

- date and information that TerraCom transmitted to Database³⁶;
- date of transmission of updated customer information to Database³⁷;
- date of transmission of customer de-enrollment to Database³⁸;
- date of customer service activation and method of activation³⁹;
- certification and re-certification forms for each subscriber⁴⁰;
- per customer records of revenues forgone by providing Lifeline services in the form requested by the Administrator for periodic reporting to the Administrator upon request⁴¹;
- date and database upon which the ETC determined income-based eligibility⁴²;
- date and documentation/data source used to determine income-based eligibility when no database was available to determine subscriber eligibility⁴³ which include the following forms of acceptable documentation:
 - prior year's state, federal, or Tribal tax return
 - current income statement from an employer or paycheck stub
 - a Social Security statement of benefits
 - a Veterans Administration statement of benefits
 - a retirement/pension statement of benefits
 - an Unemployment/Workers' Compensation statement of benefit
 - federal or Tribal notice letter of participation in General Assistance
 - a divorce decree
 - child support award
 - other official document containing income information;

³⁶ *Id.* at § 54.404(b)(6).

³⁷ *Id.*, § 54.404(b)(8).

³⁸ *Id.*, § 54.404(b)(10).

³⁹ See generally, *Id.*, § 54.407(c).

⁴⁰ *Id.*, § 54.407(d).

⁴¹ 47 C.F.R. § 54.407(e).

⁴² *Id.*, § 54.410(b)(1)(A).

⁴³ *Id.*, § 54.410(b)(1)(B)(iii).

--state Lifeline administrator documentation of customer eligibility, and subscriber's certification of eligibility⁴⁴;

--date, database, and program on which ETC determined subscriber eligibility⁴⁵;

--keep and maintain accurate records detailing data source a carrier used to determine a subscriber's program-based eligibility or the documentation a subscriber provided to demonstrate Lifeline eligibility⁴⁶;

--notice of program-certification and customer self-certification, when performed by a state agency or state Lifeline administrator⁴⁷;

--prospective subscriber certification, where subscriber acknowledges 1) Lifeline qualifications in terms of one benefit per household and the requirement that a violation of the rules could result in de-enrollment, 2) require each prospective subscriber to provide certain information with which to populate the duplicates database, 3) require each prospective subscriber to certify, under penalty of perjury, that the subscriber meets the income-based, program-based, or Tribal Lands criteria for receiving Lifeline, and the subscriber knows the Lifeline program rules, and will notify the carrier if the subscriber ceases to qualify⁴⁸;

--maintain records re-certifying all subscribers remain Lifeline eligible under a qualifying program or income eligibility, and re-certification by the subscriber that they can confirm their original certification under §54.410(d), except those subscribers that are required to be re-certified by state agencies or administrators⁴⁹;

--where a state administrator or agency is responsible for re-certification, the carrier has to: 1) maintain re-certification results from the state, 2) maintain the results of each state administrator's certification efforts for each subscriber in that state, and 3) where a state has been unable to re-certify a subscriber, the ETC must keep the record and comply with the relevant de-enrollment procedures⁵⁰;

⁴⁴ *Id.*, § 54.410(b)(2).

⁴⁵ *Id.*, at § 54.410(c)(1)(A).

⁴⁶ *Id.*, at §54.410(c)(1)(iii).

⁴⁷ *Id.*, at §54.410(c)(2).

⁴⁸ 47 C.F.R. § 54.410(d).

⁴⁹ *Id.*, at § 54.410(f)(1)-(2).

⁵⁰ *Id.*, at § 54.410(f)(3)-(5).

--maintain a record of each subscriber's re-certification (or failure to re-certify) a temporary address every 90 days⁵¹;

ii. Company-wide Records

The Commission requires ETCs to maintain some "company" records, but it also requires the ETC to make annual reports, certified by an officer of the company, to the Commission. The company reporting obligations require company officers to certify company procedures for maintaining compliance with the rules regarding ETCs participating in the Lifeline program. The records, on an aggregate basis, that companies have to collect are primarily required to be collected for reporting purposes. TerraCom will collect the following data, and report it to the requisite authorities.

--provide, on an annual basis, the results of the ETC's annual re-certification efforts to the Commission and the Administrator. For states where the TerraCom has been granted state ETC designation, it must report the results of its annual re-certification efforts to the proper state regulators, and, for Tribal Lands⁵², the ETC must collect and report the results of its Tribal re-certification process to the appropriate tribal government officials⁵³;

--if the ETC provides Lifeline discounted services to a reseller, it must obtain a certification from the reseller that it is complying with all relevant Lifeline rules⁵⁴;

--collect certain outage information for areas in which the carrier owns facilities, the failure of which, results in an outage lasting greater than 30 minutes in any calendar year and which affects critical services⁵⁵;

⁵¹ *Id.*, at § 54.410(g).

⁵² TerraCom will report to the appropriate governing body with respect to Tribal Lands re-certification efforts/results. In some states, like Oklahoma, the type of tribal government officials (which would regulate service providers) do not exist. In these states TerraCom will file its results with the proper local regulator such as the state commission.

⁵³ 47 U.S.C. § 54.416(b).

⁵⁴ *Id.*, at § 54.417(b).

--collect data on the number of complaints per 1,000 connections in the prior calendar year⁵⁶;

--certification of compliance with applicable service quality standards and consumer protection rules⁵⁷;

--certification that the carrier is able to function in emergency situations⁵⁸;

--information regarding the terms and conditions of any service plans, and the terms and conditions of any non-Lifeline plans available to the public⁵⁹.

4. Reimbursement from USAC

In the *Lifeline Reform Order*, the FCC eliminated Lifeline reimbursement based on “projected” lines for which the carrier expects to be compensated based on past growth. Instead, in the *Order*, the Commission changed the method of Lifeline reimbursements to “actual” lines served.⁶⁰ As explained previously, TerraCom considers a customer “enrolled”, for Lifeline reimbursement purposes, as of the date the customer completes their first outbound call. To the degree it has not already done so, TerraCom will modify its reimbursement requests to comply with the Commission’s new reimbursement scheme, based on actual lines served.

5. Marketing Materials

⁵⁵ *Id.*, at § 54.422(b)(1).

⁵⁶ *Id.*, at § 54.422(b)(2).

⁵⁷ *Id.*, at § 54.422(b)(3).

⁵⁸ *Id.*, at § 54.422(b)(4).

⁵⁹ 47 C.F.R. § 54.422(b)(5).

⁶⁰ *Id.* at § 54.407.

In its *Lifeline Reform Order*, the FCC imposed certain obligations on ETCs to clearly disclose on all of their marketing and advertising materials that the service they are offering is a Lifeline service, that Lifeline is a government assistance program, that it is only available to qualifying eligible customers, it is not transferable, and the program is limited to one discount per household.⁶¹ Moreover, all materials describing the service must disclose the name of the ETC providing the service.

TerraCom will include all of this required information on all of its ads describing its service. TerraCom is in the process of changing its marketing materials to comply with the new rules. Since TerraCom will not change its existing advertisements until it is sure it is in compliance with the Commission's rules, it has supplied proposed advertising copy. See **Exhibit 3**, attached.

6. Financial and Technical Capability to Provide Service

In its *Order*, the FCC includes a new qualification for carriers seeking to become ETCs: that they demonstrate they are financially and technically capable of providing the supported Lifeline service in compliance with the Commission's rules.⁶² Because TerraCom is seeking to have its pending ETC Petition, as amended, granted in tandem with the Commission's grant of this Second Revised Compliance Plan, TerraCom will demonstrate that it is financially, and technically, able to completely comply with all of the new Commission rules governing Lifeline ETCs.

TerraCom can demonstrate that it is financially and technically capable of providing both wireless and wireline Lifeline service, because it is already successfully providing both services

⁶¹ *Id.*, at § 54.405(a)-(d).

⁶² 47 C.F.R. at § 54.201(h), and § 54.202(a)(4).

as a designated Lifeline ETC in nine states and one Commonwealth, serving over 200,000 lines. TerraCom is not only capable of providing Lifeline-supported service; it is successfully providing Lifeline-supported services in the states where it is designated an ETC. In these states, TerraCom is growing its customer base, has no disproportionate consumer complaints, and offers high quality service at affordable rates to all its customers.

Nonetheless, TerraCom will demonstrate, through Exhibit 4 (Declaration of Dale Schmick) that it is financially capable of providing Lifeline-only service. TerraCom's business model is to serve low-income customers, who may, or may not, be eligible to receive Lifeline-supported service. So, TerraCom does not, and does not intend to, offer exclusively Lifeline-supported services—and is therefore not exclusively dependent on USAC for its revenue. TerraCom will also explain that it is on good terms with all of its wholesale vendors, and can afford to keep a customer's service active without depending upon immediate reimbursement from USAC in order to continue to provide service to its customers.⁶³ Thus, it is clear that TerraCom—with its years as a Lifeline-only service provider in good standing since first being designated an ETC in 2004—has only become a more capable and qualified provider of Lifeline-supported services.

* * *

As required by the *Lifeline Reform Order*, in order to take advantage of the Commission's conditional grant of blanket forbearance, TerraCom has hereby submitted a Second Revised Compliance Plan that effectively outlines the measures it will take to address each specific concern elaborated by the Commission, and every significant rule change to the Lifeline program addressed in its *Order*. The Commission should find that this plan addresses

⁶³ See, *Lifeline Reform Order*, at ¶388.

all of its concerns and that the public interest is best served by granting TerraCom the conditional “blanket forbearance” from Section 214(e)(1)(A) of the Act and approve the instant Second Revised Compliance Plan, as well as TerraCom’s pending Amended Petition for Limited ETC Designation. For these reasons, TerraCom respectfully requests that the FCC approve this Second Revised Compliance Plan, and at the same time grant its pending Amended Petition for Limited ETC Designation in the subject states of Alabama, Connecticut, Delaware, Florida, New Hampshire, New York, North Carolina, Tennessee, the Commonwealth of Virginia, and the District of Columbia.

Respectfully submitted,

TERRACOM, INC.

SECTION 1 – RULES

IMPORTANT: Please read all of this form carefully and fill it out completely. If you have questions, please ask for help. Forms that are not completed accurately will be rejected resulting in a delay in your service or rejection of your application.

Lifeline is a Federal government benefit program that offers a discount from your monthly phone service. Lifeline service is available for only one line per household; a household is defined as any individual or group of individuals who live together at the same address and share income and expenses. Households are not permitted to receive benefits from multiple providers and you may not receive multiple Lifeline discounts. You may apply your Lifeline discount to either one landline or one wireless number, but you cannot have the discount on both.

Violation of the one-per-household requirement is a violation of Federal Rules will result in your removal from the program and potential prosecution by the United States government. Applicants who willfully make false statements in order to obtain Lifeline benefits can be punished by fine or imprisonment or can be barred from the Lifeline program.

You will be required to annually re-certify that you continue to qualify for Lifeline benefits.

SECTION 2 – ELIGIBILITY BY PROGRAM (complete either Section 2 or 3)

If you or a dependent residing in your household are receiving benefits from one or more of the programs listed below, please check all that apply. You must show proof of eligibility unless we are able to certify your participation through a state database.

Temporary Assistance for Needy Families
 State Supplemental Security Income (SSI)
 Medicaid
 Federal Public Housing Assistance
 Supplemental Nutrition Assistance Program (SNAP), I/K/a Food Stamps
 Low Income Home Energy Assistance Program (LIHEAP)
 National School Lunch Program's Free Lunch Program
 State Program 1
 State Program 2
 State Program 3
 State Program 4
 Bureau of Indian Affairs General Assistance
 Head Start (must meet income qualifying standard)
 Tribally Administered Temporary Assistance for Needy Families
 Food Distribution Program on Indian Reservations

SECTION 3 – ELIGIBILITY BY INCOME (complete either Section 2 or 3)

If your income is at or below 135% of the federal poverty guidelines, as shown below, you can qualify for Lifeline.

How many people are in your Household? _____

Number of people in household	Total Annual Income at:	Number of people in household	Total Annual Income at:	Number of people in household	Total Annual Income at:
1 person	\$14,702	3 people	\$25,016	5 people	\$35,330
2 people	\$19,859	4 people	\$30,173	Each additional person	\$5,157

TO QUALIFY FOR INCOME ELIGIBILITY, YOU MUST PROVIDE COPIES OF ONE OR MORE OF THE DOCUMENTS LISTED BELOW. IF YOU PROVIDE DOCUMENTATION THAT DOES NOT COVER A FULL YEAR (SUCH AS CURRENT PAY STUBS), YOU MUST SUBMIT THREE (3) CONSECUTIVE MONTHS OF THE SAME TYPE OF DOCUMENT WITHIN THE CURRENT CALENDAR YEAR.

- Prior year's state, federal or tribal tax return
- Divorce decree or child support document
- Federal or tribal notice letter of participation in Bureau of Indian Affairs General Assistance
- Retirement/Pension benefit statement
- Social Security benefits statement
- Unemployment/Workers Compensation benefits statement
- Current income statement from employer or paycheck stub
- Veterans Administration benefits statement

SECTION 4 – CUSTOMER INFORMATION

SECTION 8 – CUSTOMER SIGNATURE

PLEASE READ AND INITIAL THE FOLLOWING. BY SIGNING & INITIALING BELOW, YOU ARE AGREEING TO THE FOLLOWING PROGRAM RULES :

_____ I certify under penalty of perjury that I either participate in the indicated qualifying federal program or I meet the income qualification to establish my eligibility for Lifeline. If required to do so, I have provided accurate documentation of my eligibility.

_____ I certify I am head of the household, I am not listed as a dependent on another person's tax return (unless over the age of 60) and the address listed is my primary residence.

_____ I confirm local voice service discounts under the low income programs are limited to one per household and that my household is receiving no more than one Lifeline supported service. If I am participating in another Lifeline program at the time I apply for TerraCom, Inc. Lifeline service, I agree to cancel that Lifeline service with any other provider. I certify that I will only receive one Lifeline connection, will not have simultaneous or multiple Lifeline discounts with another provider. I understand that I must inform TerraCom, Inc. within 30 days if I (1) no longer participate in a federal qualifying program or programs or my annual household income exceeds 135% of the Federal Poverty Guidelines; (2) I am receiving more than one Lifeline supported service per household; or (3) I, for any other reason, no longer satisfy the criteria for receiving Lifeline support. I attest under penalty of perjury that I understand this notification requirement, and that I may be subject to penalties if I fail to follow this rule.

_____ I acknowledge that I may be required to re-certify my continued eligibility for Lifeline at any time, and that failure to do so will result in the termination of the my Lifeline benefits.

_____ I understand that Lifeline service is a non-transferable benefit, and that I may not transfer my service to any other individual, including another eligible low-income consumer.

_____ I acknowledge and consent to the use of my name, telephone number, and address to be given to the Universal Service Administrative Company (USAC) (the administrator of the program) and/or its agents for the purpose of verifying that I do not receive more than one Lifeline benefit. I understand that refusal to grant this permission will mean I am not eligible for Lifeline service. I also authorize TerraCom, Inc. to access any records required to verify my statements herein and to confirm my continued eligibility for Lifeline assistance.

_____ I understand that if I move, I must provide a new address to TerraCom, Inc. within 30 days of my move. I understand that if I provided a Temporary Address, I must verify with TerraCom, Inc. every 90 days that I am using the same address. I understand that if I fail to do so, I will lose my Lifeline discount.

By my signature below, I certify under penalty of perjury that I have read and understood this form and that I attest that the information contained in this application that I have provided is true and correct to the best of my knowledge and that I acknowledge that providing false or fraudulent information to receive Lifeline benefits is punishable by law.

Supplemental Lifeline Training

In addition to your standard Lifeline training documents please refer to this information, which will be updated as needed as we expand our markets. If you have any questions about this material or Lifeline policies and procedures please see your supervisor. In addition the audit and compliance departments are always available for questions and clarifications. Remember however that TerraCom maintains an open door policy and should you have any concerns you are always welcome to bring them to any member of management, senior management or executive management.

Customer Eligibility

To help you discuss and explain the Lifeline/Link Up application with the applicant, we have put together a checklist of items which can be used to help determine a customer's eligibility as outlined below. Please go through this checklist with each applicant.

Potential applicants:

- can only qualify for one Lifeline assistance program per household
- cannot receive Lifeline service from more than one company
- cannot receive both Lifeline wireline and Lifeline wireless service
 - At the same time
 - At the same address
 - From more than one company at the same time
- can only qualify if they participate in one of the eligible low income programs listed on the application for Lifeline/Linkup
- must certify that they are the head of household
- must notify TerraCom immediately if they are no longer eligible for discounted service.

As a TerraCom representative, you are the first line of responsibility to ensure that the customer is an eligible participant and that applications are filled in accurately.

Important Things to Remember:

Social Security Numbers

Some states will require a social security number or another customer identifying number (i.e., DSHS number). These are listed in each state mandated form and must be obtained. Please refer to the matrix below for the correct way to handle a social security number in a particular state.

Duplicate Address

The rules of the Lifeline program only allow one Lifeline service per household. For example, this means the customer can have either a Lifeline discount on one wireless or one wireline service, but not both.

In the case where multiple households may be using the same address (i.e., a group home) you are responsible for informing the customer of the rule. In most cases there will be a unit number, bed number or apartment number. These must be included in the address. Should an applicant claim they are separate households it is your responsibility to know your neighborhoods and customers and reject an applicant where you believe they are not properly meeting the rules. Similarly, applicants with the same name and address must also be rejected.

Beneficiary Name

An applicant may use the benefits of a dependent to qualify for the Lifeline program should the dependent reside in the household. In many states the state mandated form has a field for name of the Qualifying Beneficiary and should be completed if the situation applies.

LIFELINE POLICIES

Usage Non - Activity Policy

A customer will no longer be eligible for a Lifeline discount if they do not use the service for a specified period of time, usually 60 or 90 days.

Once an account has been moved to a non-usage status, the subscriber has up to 30 days to re-enroll by contacting the company. If a customer does not re-enroll or call a customer service representative within 30 days of the de-enrollment, the phone service will be deactivated (any airtime will be lost). Note: A subscribers must provide proof of eligibility and pay an activation fee to re-enroll in the wireless Lifeline program. Usage can be: making or receiving a call, making or receiving a text message, checking a voicemail message, checking airtime balance, downloading content, data usage, or adding airtime.

Link Up Discount

A customer may only receive the Link Up discount once at any address. For example, should a customer receive a Link Up discount for Lifeline wireline service then disconnect that service and subsequently sign up for a Lifeline wireless account at the same address, they are responsible for paying the full amount of the service activation fee.

They can only receive the Link Up discount again if they have moved and are starting new service and that new address.

Please note that subscribers are responsible to pay any remaining portion of the activation fee not covered by Link-Up. Subscribers are solely responsible to pay for the entire activation fee if they are not eligible for Link-Up. Activation fees due by the subscriber may be deferred over a period of 12 months (balance at time of activation divided by 12 and billed monthly).

The matrix below is to be used as a quick reference guide for the applicable rules by state:

State	In Service Date	Trial Area	Rate Plan	Certification	Social Security Number Required	Verification	Usage/Minimum Activity Policy (defined below)	Notes
Arkansas	2/28/2011	No	250	S	9	Annually contact the customer for re-certification	60 days without usage	
Iowa	8/5/2011	No	68,125,250, unlimited	S	9	Annual sample/Annually contact the customer for re-certification	90 days without usage	
Louisiana	10/11/2011	No	250	S	NR	Annual sample/Annually contact the customer for re-certification	60 days without usage	Can request a SS in this State but can not deny service if customer chooses not to provide.
Maryland	3/4/2011	No	250	S	9	Required to use the Maryland list for annual verification only	90 days without usage	
Nevada	5/13/2011	No	250	O	NR	Annually contact the customer for re-certification if signed up via income based certification See Notes	90 days without usage	Certification: if applicant is on the state list they are approved, otherwise KP. If they are on the list, keep the list as proof, otherwise keep program proof. Verification: if signed up via a low-income program, review the list provided every 6 months by the Nevada Department of Health and Human Services. If customer name is not on the list, contact customer and ask them for documentation. Customer has 60 days to provide documentation or will no longer receive Lifeline service.
Oklahoma	8/18/2011	Yes	Unlimited- \$6.20 1000- \$1	SP	NR	Annually contact the customer for re-certification	Not applicable as we are billing customers	
Puerto Rico	12/21/2011	No	250	S	9	Annually contact the customer for re-certification	90 days without usage	MARKET NOT OPEN YET
Texas	10/31/2011	No	250	KP, O	9	See Notes	90 days without usage	Certification: Via a Solix/LDA approved form supported by copies of proof documentation. We will do an initial approval ("soft approval") and send in documentation in hard copy to Solix weekly. File of Texas customers is sent to Solix c. the 24th of each month and they will send back a file by the end of the month that will include matches. Those not on the list that we approved will have been determined by Solix to be ineligible. We can hold aside forms we are unable to verify eligibility on and, after they verify, send to them with TN. NOTE: THERE IS A CERTIFICATION FORM VERSION WE CAN USE FOR MAILING. THE SPACE UNDER THE FIRST SENTENCE UNDER SECTION 1 SHOULD BE USED FOR A PRE-PRINTED CUSTOMER NAME AND ADDRESS. Verification: Via the ongoing certification process.
West Virginia	4/11/2011	No	250	S	NR	Annually contact the customer for re-certification	90 days without usage	
Wisconsin	1/16/2012	No	250	KP	9	See Notes	60 days without usage	Certification/verification: Via CARES database or DOR

S - Self-Certification NR - Not Required

Exhibit 4

DECLARATION OF DALE SCHMICK

VP, TerraCom, Inc.

1). My name is Dale Schmick. I am the Vice President of TerraCom, Inc. ("TerraCom"). As part of my duties, I am in charge of ensuring that TerraCom is in compliance with all applicable regulations and laws. My business address is 401E Memorial Road, Suite 400, Oklahoma City, OK 73114. TerraCom provides over 200,000 combined wireless and wireline lines to low income subscribers through the Universal Service Administrative Company's ("USAC's") Lifeline program. TerraCom sells its wireless and wireline services through 1 wholly-owned retail store and through inbound online sales. TerraCom has been in business for over almost 8 years and employs approximately 73 people.

PS

2.) The purpose of my declaration is to satisfy the requirements of new rule §54.202(a)(4), which requires carriers seeking “blanket forbearance” to provide Lifeline-only service to demonstrate, with detailed information, that they are financially and technically capable of providing Lifeline-only wireless services. Consistent with the *Lifeline Reform Order*, and the rule implementing this obligation, I will provide more than sufficient information to satisfy the Commission that TerraCom meets these requirements.

3.) I will first address TerraCom’s technical capability to provide Lifeline-only service. While a fair amount of TerraCom’s total wireless service offering is satisfied by its underlying carriers’ existing certifications that they have sufficient back up power to remain functional in an emergency, there are portions of TerraCom’s wireless service—as consumed by TerraCom’s customers—that are provided over TerraCom owned, or controlled, facilities. In compliance with rule §54.202(a)(3), TerraCom certifies that it does maintain sufficient back up power for its own facilities to ensure that the total TerraCom customer experience will be preserved in the case of an emergency situation. In other words, TerraCom has sufficient power to keep its facilities running in tandem with its wireless wholesale partners in the case of an emergency.

4.) With respect to the detailed financial information the Commission has requested in the *Lifeline Reform Order*,¹ the Commission explained that a carrier seeking “blanket forbearance” (from the Act’s facilities requirement) could prove that it is financially and technically capable of becoming a Lifeline-only ETC by addressing certain factors. Specifically, in order to demonstrate its financial ability to provide service, TerraCom can certify that: 1) it offers service to low-income customers—all low income customers, and not just those customers that are

¹ *Lifeline Reform Order*, ¶388.

eligible to receive reimbursements from the Lifeline program; 2) TerraCom has been in business for almost 8 years; 3) TerraCom has never been exclusively dependent on receiving Lifeline subsidies to operate, and to ensure that all its consumers will receive the service they have been promised; 4) TerraCom has never been subject to state or federal enforcement sanctions, and TerraCom has never been the subject of a state revocation proceeding. Thus, TerraCom has almost 8 years of successfully providing valuable customer service (wireline and wireless) and growing its business as a Lifeline-only ETC.

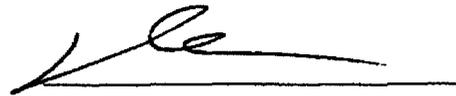

5.) Finally, while not specifically requested, TerraCom has decided to offer up a little more financial information designed to assure the Commission that it is financially capable of providing good quality, reliable service to customers. First, TerraCom is a financially stable and liquid service provider. This fact is relevant in assessing TerraCom's lack of reliance on Universal Service Fund reimbursements in order to continue providing service to end users.

6.) Finally, the most significant piece of information that TerraCom can possibly convey to assure the Commission of its ability to successfully provide service (aside from TerraCom's long track record of successfully providing Lifeline service) is its good commercial relationship with all of its vendor partners. I can certify that TerraCom is current in all of its accounts with all relevant vendors who contribute to the provision of TerraCom's wireless service. This provides the Commission with the additional assurance that other market participants—parties who will lose money if TerraCom is not financially capable of providing wireless service—are confident in TerraCom's ability to continue to provide service to its customers.

7.) Taking all certifications together, TerraCom has more than demonstrated—within the financial and technical capability requirement—that it has addressed all of the questions raised in

the Order, and provided additional assurances to the Commission regarding TerraCom's ability to satisfy this requirement. Then, of course, there is the simpler demonstration contained herein, which shows that TerraCom's long history of providing service in compliance with all relevant state and federal rules—and at no cost to the Fund (to the best of TerraCom's knowledge)—for the past 8 years is more than ample demonstration that TerraCom meets the Commission's new requirements for demonstrating financial and technical capability to be a service provider.

8.) This concludes my declaration.

A handwritten signature in black ink, appearing to read 'Dale Schmick', is written over a solid horizontal line.

Dale Schmick

Dated: 3/2/12
