Subject: TEP Proposed Rate Hike

Ladies and Gentlemen,

After watching the evening news here in Tucson last evening, i was dismayed by the piece concerning Tucson Electric Power Company requesting another rate increase. The news stated the increase was to cover costs associated with investment in new energy generation and transmission equipment. I am at a loss as to understand why the customer base should be held responsible for investment in future revenue generation equipment (yes, the equipment generates electricity, also), so TEP can make more money. Please explain! Thank you!

Sincerely,

Wayne Foxx
Tucson, AZ

By the way; Perhaps my memory does not serve well, but didn't TEP recently request and receive a rate increase??
