Re: Revisions to Arizona C.C. Tariff No. 3 of Electric Lightwave, LLC dba Integra Telecom – Access Service - in Compliance with FCC Rules

To Whom It May Concern:

Enclosed for filing with the Commission are originals and 14 copies of revised tariff sheets for Arizona C.C. Tariff No. 3 of Electric Lightwave, LLC dba Integra Telecom (Integra). Integra respectfully submits that the proposed revisions are administrative in nature and in accordance with Commission directives and FCC rules and asks for an effective date of July 3, 2012. The following revised pages are included with this filing:

- o 1<sup>st</sup> Revised Sheet 2 – revised Check Sheet;
- o Original Pages 27.1, 27.2, 27.3, 27.4, 27.5 and 27.6 – adding VoIP traffic terms and conditions;
- o 1<sup>st</sup> Revised Page 61 – reduced and revised switched access rates.

47 C.F.R. § 51.911(b)(5) allows a CLEC the option of adopting its interstate rate structure plus a transitional intrastate per minute charge on terminating access. Integra elects to use this option. Since Integra has a single blended access rate at both the state and Federal level, the determination of the terminating rates and the transitional rate is fairly straight forward. Integra’s current intrastate terminating rate in Arizona is \$0.042477. Integra’s current interstate terminating rate is \$0.003735. The new transitional rate is simply: (Intrastate Rate – Interstate Rate)/2, or  $(\$0.042477 - \$0.003735)/2 = \$0.019371$ .

I have enclosed one extra copy of this filing; please date-stamp and return it in the enclosed envelope. Thank you for your assistance in this matter. If you have any questions or concerns, please contact the undersigned directly.

Sincerely,

Catherine A. Murray  
Manager Regulatory Affairs  
Integra Telecom

Effective Date: July 3, 2012

REGULATIONS, Continued

2.3 Obligations of the Customer, Continued

2.3.3 Jurisdictional Report Requirements, Continued

I) VoIP-PSTN Traffic

1. Scope: VoIP-PSTN Traffic is the traffic exchanged in Time Division Multiplexing ("TDM") format that originates and /or terminates in Internet Protocol ("IP") format. Telecommunications traffic originates and/or terminates in IP format if it originates from and/or terminates to an end-user customer of a service that requires Internet protocol-compatible customer premises equipment. This section governs the identification of toll VoIP-PSTN traffic subject to interstate switched access rates in accordance with the Federal Communications Commission Report and Order in WC Docket Nos. 10-90, etc., FCC Release No. 11-161 (Nov. 18, 2011) ("FCC Order"). This section establishes the method of distinguishing toll VoIP-PSTN traffic from the Customer's total intrastate access traffic, so that toll VoIP-PSTN traffic will be billed in accordance with the FCC Order.

2. Rating of Toll VoIP-PSTN Traffic:

(N)

- a. Originating Toll VoIP-PSTN Traffic identified in accordance with this tariff section will be billed in accordance with the Company's applicable tariffed interstate switched access rates between December 29, 2011 and July 12, 2012.
- b. Originating Toll VoIP-PSTN Traffic identified in accordance with this tariff section will be billed in accordance with the Company's applicable tariffed intrastate switched access rates between July 13, 2012 and June 30, 2014. (PVU factors described in 2.7.3(I).3 do not apply.)
- c. Originating Toll VoIP-PSTN Traffic identified in accordance with this tariff section will be billed in accordance with the Company's applicable tariffed interstate switched access rates effective July 1, 2014.
- d. Terminating Toll VoIP-PSTN Traffic identified in accordance with this tariff section will be billed in accordance with the Company's applicable tariffed interstate switched access rates.
- e. The Company's switched access tariff can be viewed online at: <http://fjallfoss.fcc.gov/cgi-bin/ws.exe/prod/ccb/etfs/mainmenu.hts>

REGULATIONS, Continued

2.3 Obligations of the Customer, Continued

2.3.3 Jurisdictional Report Requirements, Continued

3. Calculation and Application of Percent-VoIP-Usage Factor

(N)

The Company will determine the number of toll VoIP-PSTN Traffic minutes of use ("MOU") to which interstate rates will be applied under subsection .2, above, by applying a Percent VoIP Usage ("PVU") factor to the total intrastate access MOU exchanged between the Company and the Customer. The PVU will be derived and applied as follows:

- a. The Customer will calculate and furnish to the Company a factor ("PVU-Customer"), along with supporting documentation, representing the percentage of the total intrastate access MOU that the Customer exchanges with the Company in the State, that (a) is sent to the Company and that originates in IP format and (b) is received from the Company and terminates in IP format. This PVU-Customer shall be based on verifiable information such as the number of the Customer's retail VoIP subscriptions in the State (e.g., as reported on the FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information.
- b. Company will, likewise, calculate a factor (PVU-Company) representing the percentage of the Company's total intrastate access MOU in the State that the Company originates or terminates in IP format. This PVU-Company shall be based on the number of the Company's retail VoIP subscriptions in the State as reported on FCC Form 477.

(N)

REGULATIONS, Continued

2.3 Obligations of the Customer, Continued

2.3.3 Jurisdictional Report Requirements, Continued

- c. After the Company verifies the PVU-Customer factor provided by the Customer the Company will use the PVU-Customer and PVU-Company factors to calculate an effective PVU factor that represents the percentage of total access MOU exchanged between the Company and the Customer that is originated or terminated in IP format, whether at the Company's end, at the Customer's end, or at both ends. The PVU factor will be calculated as:  $PVU\text{-Customer} + PVU\text{-Company} \times (1 - PVU\text{-Customer})$ .
  
- d. In the event that the Company cannot verify the Customer's PVU-Customer factor based upon the information provided by the Customer, the Company will request additional information to support the PVU-Customer. The Customer shall supply reasonably requested additional information and other information used to determine the PVU-Customer factor. If after review of the additional information, the Customer and the Company establish a revised and mutually agreed upon PVU-Customer, the Company will begin using the new factor with the next bill period.

(N)

(N)

REGULATIONS, Continued

2.3 Obligations of the Customer, Continued

2.3.3 Jurisdictional Report Requirements, Continued

4. Initial PVU Factor

(N)

If the PVU factor is not available and/or cannot be implemented in the Company's billing systems by December 29, 2011, once the factor is available and can be implemented, the Company will adjust the Customer's bills to reflect the PVU retroactively to December 29, 2011. In calculating the initial PVU, the Company will take the Customer-specified PVU-Customer into account retroactively to December 29, 2011, provided that the Customer provides the factor to the Company prior to April 15, 2012. If the Customer does not furnish the Company with a PVU-Customer, the Company will utilize a PVU-Customer equal to zero percent.

The initial PVU-Company is equal to zero percent.

5. PVU Factor Updates:

The Customer may update the PVU-Customer factor or the Company may update the PVU-Company factor quarterly using the method set forth in subsection (C)(1), above. If the Customer chooses to submit such updates, it shall forward to the Company, no later than 15 days after the first day of January and/or July of each year a revised PVU-Company factor and supporting documentation. Once verified by the Company the revised PVU-Company factor will apply prospectively and serve as the basis for billing until superseded by a new verified factor.

(N)

REGULATIONS, Continued

2.3 Obligations of the Customer, Continued

2.3.3 Jurisdictional Report Requirements, Continued

6. PVU Factor Verification

(N)

- a. Not more than twice in any year, the Company may request from the Customer an overview of the process used to determine the PVU factor(s), the call detail records, description of the method for determining how the Customer's end-users originate and terminate calls in IP format, and other information used to determine the Customer's PVU factor(s) furnished to the Company in order to validate the PVU factor(s) supplied. The Customer shall comply with each such Company request, and shall reasonably supply the requested data and information within 15 days of the Company's request.
- b. The Company may dispute the Customer's PVU factor(s) based upon:
  - i. A review of the requested data and information provided by the Customer;
  - ii. The Company's reasonable review of other market information, FCC reports on VoIP lines, such as FCC Form 477, or state level results based on the FCC's Local Competition Report, or other relevant data;
  - iii. A change in a reported PVU factor by more than five percentage points from the preceding quarter.
- c. If, after review of the data and information, the Customer and the Company establish revised a PVU factor(s), the Company will begin using the revised PUV factor(s) in the next billing cycle.
