Re: Notice of Filing – UNS Electric, Inc.  
Supplement to the 2012-2021 Ten-Year Plan and Reliability-Must-Run Report  
Docket No. E-00000D-11-0017

On January 31, 2012 UNS Electric, Inc. (“UNS Electric”) UNS Electric filed its 2012-2021 Ten-Year Plan (“Plan”) and Reliability-Must-Run (“RMR”) Report pursuant to ARS § 40-360.02. As part of the 10-Year Plan requirements, UNS Electric is required to file information on its internal planning criteria and system ratings as required by Decision No. 63876 (July 25, 2012). For this requirement UNS Electric applies NERC Standards and the WECC System Performance Criteria and has no additional documentation for planning criteria. UNS Electric is also required to file technical reports, analysis or basis for projects that are included for serving customer load growth in its service as required by ARS § 40-360.02.C.7. This information is provided in the RMR Report which shows that the maximum load serving capability of the transmission system in each area, Mohave and Santa Cruz counties, is greater than UNS Electric load.

If you have any questions, please contact me at (520) 884-3680.

Sincerely,

Jessica Bryne
