Subject: Palo Parado crossing

Commissioner Newman

I just found out at the August 9th meeting the Commission approved the section 130 funding for the Palo Parado crossing at the Union Pacific tracks in Santa Cruz County. I listened to the recorded meeting and appreciate that you brought the item up for discussion before the vote. The Palo Parado crossing has been a very important project for those of us living east of the Santa Cruz River and Union Pacific Railroad crossing. The community has been engaged since 2008 in keeping the crossing open and getting the county to construct a bridge over the Santa Cruz River. We helped raised the needed funding to complete the improvements to the Palo Parado roadway, so the county would qualify for the 130 funding. The bridge is now under construction and approval of the 130 funding will complete the safety signals at Union Pacific Railroad crossing. Just wanted to thank you for your support and vote to improve the safety of the 10,000 residents living in the area of east Rio Rico.
