We have been working with you for a rate increase. The last communicate I received from you said you needed the CC & N to complete the process.

Since that time I had surgery and was out of the office for seven weeks. I am now just getting back and this was the first thing on my list.

Bidegain Water Company has been in operation since 1985. The original owner and his wife have died. If a CC&N was done, we know nothing about it. A lot of the information on the CC&N is unknown to us. I asked the current owner about the maps you wanted and he said if you wanted to know where the pipes were, you can pay to have them dug up.

This is a very small operation and we only want to increase the rate to try and break even. Because it is older repairs will be necessary. This will take funds.

If you have any questions call me and I will do the best I can. There are things that no one knows the answer to, all we can do is guess.

General Information:

W-02026A-12-0378

The attached forms have been prepared by the Utilities Division of the Arizona Corporation Commission to assist Applicants filing for a Certificate of Convenience and Necessity. The information requirements of this application are designed to comply with the requirements of Arizona Revised Statutes Section 40-101 et. seq., and the Arizona Administrative Code R14-2-402 and R14-2-602.

Use of the attached form is suggested unless an attorney uses a formal pleading format. The information requested in this application must be included within the pleading. Attachment "A" is an example of a letter of transmittal addressed to the Utilities Division Docket Control Center. Please add information to the letter indicating the purpose and reasons for the application. This format should be used unless you are using a Company letterhead. Place this letter at the beginning of the application. Keep this instruction sheet for your information. Do not attach it to the application.

Instructions:

1. Complete the forms accurately, and attach all required documents. This will expedite the processing of the application.
2. Complete all the items that apply to your utility. If an item requested does not apply, mark it "not applicable" (N/A). If you do not complete an item, your application could be delayed.
3. If the space provided is insufficient, put the information on a separate sheet of paper and clearly label the information.
4. If an item is to be filed at a later date, mark the item "to be late filed by" and give the date by which it will be filed.
5. Have the application notarized.

6. Submit an original and thirteen (13) copies of this application.
7. If you plan to finance the plant through debt (long term loans) or equity (stock issuance), a separate financing application must be made with separate notice to the public. A requirement sheet for filing a financing application, and a form of notice, will be sent to you at your request. You may download a copy of the financing application at: <http://www.azcc.gov/divisions/utilities/forms/financeApp.pdf>
8. Attachment "A" is a form of public notification that must be provided all property owners in the area requested in this application. Notice should be mailed to each person who owns land within the proposed service area and who has not requested service before the application is filed. If more than 100 property owners, notice should be given by mail or by publication at least once in a newspaper of general circulation in the service area within 15 days before the application is filed. Proof of notice should be filed with the Commission as part of the application. Hearings will always be held. The Hearing Officer will specify any additional notice in a Procedural Order.
9. Upon receiving an application, Utilities Division staff shall review and process the application in accordance with the requirements of R14-2-411.
10. Once Utilities Division staff determines that an application is administratively complete, the Commission shall, as expeditiously as practicable, schedule a hearing to consider the application.

CURTAILMENT PLAN FOR: BIDEGAIN WATER
(Template 102109)

ADEQ Public Water System No: 110022

BIDEGAIN WATER ("Company"), is authorized to curtail water service to all customers within its certificated area under the terms and conditions listed in this tariff.

This curtailment plan shall become part of the Arizona Department of Environmental Quality Emergency Operations Plan for the Company.

The Company shall notify its customers of this new tariff as part of its next regularly scheduled billing after the effective date of the tariff or no later than sixty (60) days after the effective date of the tariff.

The Company shall provide a copy of the curtailment tariff to any customer, upon request.

Stage 1 Exists When:

Company is able to maintain water storage in the system at 100 percent of capacity and there are no known problems with its well production or water storage in the system.

Restrictions: Under Stage 1, the Company is deemed to be operating normally and no curtailment is necessary.

Notice Requirements: Under Stage 1, no notice is necessary.

Stage 2 Exists When:

- a. Company's water storage or well production has been less than 80 percent of capacity for at least 48 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 2, the Company may request the customers to voluntarily employ water conservation measures to reduce water consumption by approximately 50 percent. Outside watering should be limited to essential water, dividing outside watering on some uniform basis (such as even and odd days) and eliminating outside watering on weekends and holidays.

Effective: May 25, 2012

Notice Requirements: Under Stage 2, the Company is required to notify customers by delivering written notice door to door at each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such notice shall notify the customers of the general nature of the problem and the need to conserve water.

Stage 3 Exists When:

- a. Company's total water storage or well production has been less than 50 percent of capacity for at least 24 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 3, the Company shall request the customers to voluntarily employ water conservation measures to reduce daily consumption by approximately 50 percent. All outside watering should be eliminated, except livestock, and indoor water conservation techniques should be employed whenever possible. Standpipe service shall be suspended.

Notice Requirements:

- 1. Company is required to notify customers by delivering written notice to each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such Notice shall notify the customers of the general nature of the problem and the need to conserve water.
- 2. Beginning with Stage 3, the Company shall post at least 2 signs showing the curtailment stage. Signs shall be posted at noticeable locations, like at the well sites and at the entrance to major subdivisions served by the Company.
- 3. The Company shall notify the Consumer Services Section of the Utilities Division of the Corporation Commission at least 12 hours prior to entering Stage 3.

Once Stage 3 has been reached, the Company must begin to augment the supply of water by either hauling or through an emergency interconnect with an approved water supply in an attempt to maintain the curtailment at a level no higher than Stage 3 until a permanent solution has been implemented.

Company Name: BIDEGAIN WATER Page 1 of 2**CROSS-CONNECTION OR BACKFLOW TARIFF****ORIGINAL****PURPOSE:**

The purpose of this tariff is to protect BIDEGAIN WATER ("Company") water from the possibility of contamination caused by the backflow of contaminants that may be present on the customer's premises by requiring the installation and periodic testing of backflow-prevention assemblies pursuant to the provisions of the Arizona Administrative Code ("A.A.C.") R14-2-405.B.6 and A.A.C. R18-4-215.

REQUIREMENTS:

In compliance with the Rules of the Arizona Corporation Commission ("Commission") and the Arizona Department of Environmental Quality ("ADEQ"), specifically A.A.C. R14-2-405.B.6 and A.A.C. R18-4-215 relating to backflow prevention:

1. The Company may require a customer to pay for and to have installed a backflow-prevention assembly if A.A.C. R18-4-215.B or C applies.
2. A backflow-prevention assembly required to be installed by the customer under Paragraph 1 of this tariff shall comply with the requirements set forth in A.A.C. R18-4-215.D and E.
3. Subject to the provisions of A.A.C. R14-2-407 and 410, and in accordance with Paragraphs 1 and 7 of this tariff, the Company may terminate service or may deny service to a customer who fails to install a backflow-prevention assembly as required by this tariff
4. The Company shall give any existing customer who is required to install a backflow-prevention assembly written notice of said requirement. If A.A.C. R14-2-410.B.1.a. is not applicable, the customer shall be given thirty (30) days from the time such written notice is received in which to comply with this notice. If the customer can show good cause as to why he cannot install the backflow-prevention assembly within thirty (30) days, the Company or Commission Staff may suspend this requirement for a reasonable period of time.

5. Testing shall be in conformance with the requirements of A.A.C. R18-4-215.F. The Company may require the customer to pay to have the backflow-prevention assembly tested as long as the Company does not require an unreasonable number of tests.
6. The customer shall provide the Company with records of installation and testing. For each backflow-prevention assembly, these records shall include:
- assembly identification number and description;
 - location
 - date(s) of test(s);
 - description of repairs and recommendations for repairs made by tester; and
 - the tester's name and certificate number.
7. In the event the backflow-prevention assembly does not function properly or fails any test, and an obvious hazard as contemplated under A.A.C. R14-2-410.B.1.a. exists, the Company may terminate service immediately and without notice. The backflow-prevention assembly shall be repaired or replaced by the customer and retested.
8. In the event the backflow-prevention assembly does not function properly or fails any test, or in the event that a customer fails to comply with the testing requirement, and A.A.C. R14-2-410.B.1.a. is **not** applicable, the backflow-prevention assembly shall be repaired or replaced within fourteen (14) days of the initial discovery of the deficiency in the assembly or its function. Failure to remedy the deficiency or dysfunction of the assembly, or failure to retest, shall be grounds for termination of water service in accordance with A.A.C. R14-2-410.

APPROVED FOR FILING

P. Explain the method of financing utility facilities. Refer to the instructions, item no. 7. (Use additional sheets if necessary):

Q. Attach financial information in a format similar to Attachment "C". Include current assets and liabilities, an income statement, estimated revenue and expenses and the estimated value of the applicant's utility plant in service for the first five years following approval of the application.

R. Provide a detailed description of the proposed construction timeline for facilities with estimated starting and completion dates and, if construction is to be phased, a description of each separate phase of construction.

S. Provide a copy of any requests for service from persons who own land within the proposed service area or extension area, which shall identify the applicant by name.

T. Provide maps of the proposed service area identifying:

1. The boundaries of the area, with the total acreage noted;
2. The land ownership boundaries within the area, with the acreage of each separately owned parcel within the area noted;
3. The owner of each parcel within the area;
4. Any municipality corporate limits that overlap with or are within five miles of the area;
5. The service area of any public service corporation, municipality, or district currently providing water or wastewater service within one mile of the area, with identification of the entity providing service and each type of service being provided;
6. The location within the area of any known water service connections that are already being provided service by the applicant;
7. The location of all proposed developments within the area;
8. The proposed location of each water system and the principal; and
9. The location of all parcels for which a copy of a request for service has been submitted.

U. Provide a copy of each notice to be sent, as required, to a municipal manager or administrator.

V. A copy of each notice sent, as required, to a landowner not requesting service.

W. For each landowner not requesting service, provide either the written response received from the landowner or, if no written response was received, a description of the actions taken by the applicant to obtain a written response.

X. Attach proposed Tariffs using either the water or sewer format of Attachment "D", unless the Utilities Division, prior to the filing of this application, approves another form.

Y. Attach the following permits:

1. The franchise from either the City or County for the area requested.
2. The Arizona Department of Environmental Quality (or its designee's) approval to construct facilities.
3. The Arizona State Land Department approval. (If you are including any State land in your requested area this approval is needed.)
4. Any U.S. Forest Service approval. (If you are including any U.S. Forest Service land in your requested area this approval is needed.)
5. (WATER ONLY) If the area requested is within an Active Management Area, attach a copy of the utility's Designation of an Assured Water Supply, or the developer's Certificate of Assured Water Supply issued by the Arizona Department of Water Resources, whichever applies.
 - a. If the area requested is outside an Active Management Area, attach the developer's Adequacy Statement issued by the Arizona Department of Water Resources, if applied for by the developer.
 - b. If the area requested is outside an Active Management Area and the developer does not obtain an Adequacy Statement, provide sufficient detail to prove that adequate water exists to provide water to the area requested.
6. Provide a copy of your estimated property taxes. This may be obtained by contacting the Arizona Department of Revenue, Division of Property Valuation and Equalization. You must provide them with a five (5) year projection of the original cost of the plant, depreciation expense, the location of the property and the school district.
