Re: Tucson Electric Power Company's 2011-2012 Energy Efficiency
Implementation Plan – Request for Consideration and Approval Prior to
September 30, 2012
Docket No. E-01933A-11-0055

Dear Commissioners:

EnerNOC, Inc. ("EnerNOC") is filing this letter to express its strong support for Tucson Electric Power Company Chairman and Chief Executive Officer Paul J. Bonavia's September 17, 2012 letter to the members of the Arizona Corporation Commission (i) expressing surprise and disappointment that the Recommended Opinion and Order ("ROO") currently pending in the above-referenced docket has yet to be scheduled for consideration, and (ii) requesting that the ROO be considered and acted upon by the Commission either at its September 20, 2012 Open Meeting or at a Special Open Meeting no later than the end of this month.

EnerNOC was an active party in the evidentiary proceedings which resulted in the ROO, and it also strongly supports the ROO as written. However, setting aside for the moment EnerNOC's position on the merits of the ROO, what is perhaps more important is that the Commission consider and act upon the ROO at this time. As Chairman Bonavia notes in his letter, further delay in acting upon the ROO and the Updated Plan therein discussed can have very negative consequences for the Company, its ratepayers and providers of energy efficiency services.

Arizona Corporation Commission

Thank you for your consideration of Chairman Bonavia's letter request and EnerNOC's support of the same.

Sincerely,

Lawrence V. Robertson, Jr.
