In the matter of the Application of Arizona Public Service Company Application to Modify the Residential Incentives

Re: DOCKET NO. E-01345A-II-0264

We would like to express our support for the Arizona Public Service (APS) Application to Modify the Residential Incentives. In their Application to Modify the Residential Incentives, APS made the following requests:

- (i) shift \$650,000 from APS's current non-PV incentive budget to the current residential grid-tied PV incentive budget; and
- (ii) offer cash incentives at \$0.10/watt for residential grid-tied PV until this funding is exhausted or the remainder of 2012, whichever occurs sooner.

AriSEIA supports both requests, which will allow unused funds to support a continued residential PV incentive for the remainder of 2012 or until funds run out, while preserving adequate funding for the non-pv technologies.

If you have any questions, please feel free to contact me.

Sincerely,

Michael Neary
Executive Director

Arizona Corporation Commission
