Generic Smart Meter Investigation E-00000C-11-0328

Submission OCT. 2012
3 Not be called

ites of people who have taken out their smart meters. This is an unfair proposition. I had to remove my smart meter as I became deathly ill when my neighbor next door moved in & turned on their smart meter. It became left threatening to me. I became seriously ill in June & was taken to the E.R. Hosp. where the doctor thought I was stroked out. I was blind unable to eat, drink, move or control my body. My doctor (primary dr) has all 3 times just become deathly ill from the smart meter. Documented. I became homeless for 6 wks until all my neighbors on a smart compassionate basis removed their meters so I could come home. We are all on low-limited income do to all of us ~~are~~ have medical problems. It is unfair for them to have to pay more each month & will jeopardize my life.

once again. & I will become Homeless &
die. if you let APS raise rates on
People who do not have Smart meters.
My neighbors did this because they care for
me & my health. But can not afford a hike
in their Bill. I said they would have to take
out their ~~Smart~~ meters & replace w/ Smart meters
if they are charged.

I am severely damaged, eyes, Organs, Brain
neurological, physically, mentally. & the time
am not recovering from the Smart meters
exposure. & my lip has been diagnosed
guaranteed to fall. I've paid my house off so
I could always live there. & now with prices declining
I'm unable to sell my house & afford another.
Where can I go that there is
no Smart meters?

Smart meters as you are aware of are
becoming a medical problem through
out the US. & world. With APS pushing
the Smart meters. They should also
be held liable for the damages

The Smart meters is causing thousands
 & thousands of people. it is clear **THERE**
 IS A PROBLEM WITH Smart meters
 & as long as they are around. These
 problems will grow. Please do not let
 APS. PUNISH the people who took out
 their smart meters because there are
 problems & are making people very ill
 why should we be singled out & punished?
 This is discrimination. & An ADA discrimination
 there are enough people in AB. to raise the
 rate for this by passing it on a few cents to
 everyones bill. is the only fair way about this

my life has been cut down. I now am unable
 to enjoy my life. go to restaurants, out with friends
 venues, movies, etc. because I become deathly ill
 & very likely will die because of the smart meters
 expose has & is killing my body. I am now
 forced to stay in my house & yard as my life now
 this is UNFAIR. I was perfectly
 fine. before the smart meters & was looking
 forward & planning my life now. it looks
 like I do not have a life to

look forward to a plan. There are a lot of us just like me. Some better. Some worse they need to come up with a safer way than to "Smart meters". This is unfair to all of us.

1) Please donot raise the rates & single out people who do not have smart meters

2) raise the rates to every one or have APS eat it. As "its a part of business" they @ APS say.

3) please ban & remove all smart meters in AZ. Make them put back the old ones until they re design & PROVE they are safe another meter. That everyone will be safe with

4) please take a stand for the people & their right to LIVE & be safe & healthy.

5) if some one becomes very ill from their neighbors smart meters & can show reason by doctors etc make APS. Remove the Neighbors meter or be held liable.

-3-

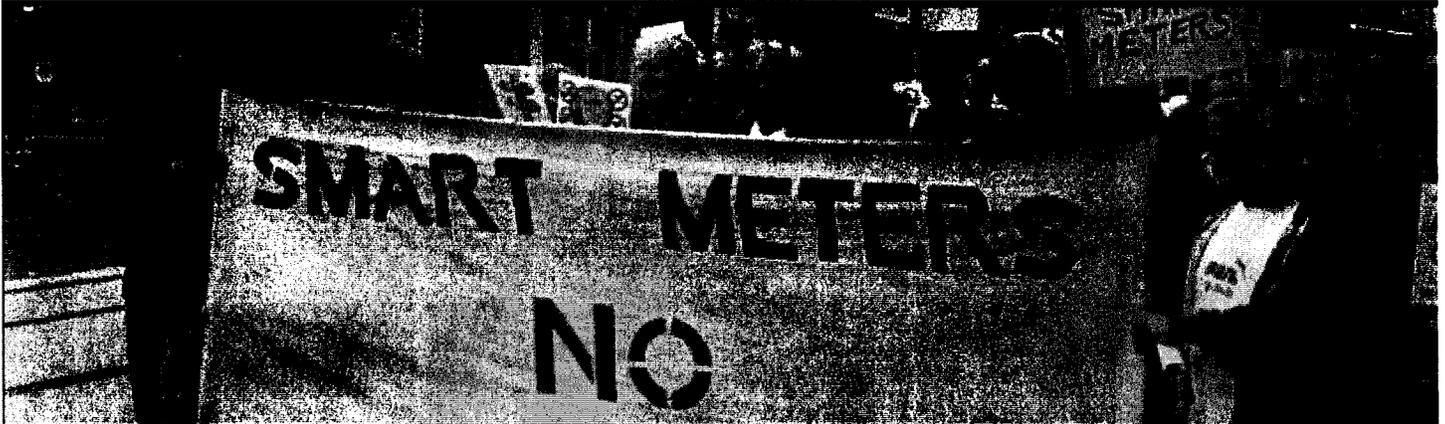

If you have any questions please
feel free to write or call.

Sincerely,
Jacki Hardy

Contact the White House at 202-456-1111 or <http://www.whitehouse.gov/contact/submit-questions-and-comments>

Demand President Obama take responsibility for the utility smart grid debacle and **immediately enforce a nationwide recall on 'smart' metering systems**, for the health safety and privacy of everyone in our country.
http://actiondaytostopsmartmeters.org/?page_id=148

Become informed and tell your friends, people in your community, schools, hospitals, workplace and places of worship, that 'smart' meters damage our health, our DNA and our environment.
