DELETE lines 18 through 20 and INSERT:

“In Arizona, ADWR has primary jurisdiction for establishing water conservation standards within Active Management Areas (“AMA”). Pima is located in the Phoenix AMA and is therefore subject to the water conservation requirements established by ADWR. In light of Arizona’s regulatory framework, we agree with Pima that it would be inappropriate for the Commission to require the Company to adopt more BMPs than it is required to have under ADWR’s regulations, particularly where there is no evidence suggesting a greater water shortage in Pima’s service territory relative to other areas within the Phoenix AMA.”
