**ARIZONA PUBLIC SERVICE
PALO VERDE HUB TO NORTH GILA 500-kV
TRANSMISSION LINE PROJECT**

*Summary of Certificate of
Environmental Compatibility Compliance*

INTRODUCTION:

Arizona Public Service Company (APS) is submitting the following self-certification documentation pursuant to Condition 16 of the Palo Verde Hub to North Gila 500-kV Transmission Line Project, Certificate of Compatibility Case No. 135, Docket No. L-00000D-07-0566-00135, Decision No. 70127 (January 23, 2008).

The following Condition Table lists all the requirements and the status of compliance activities.

No construction activities have occurred as of November 1, 2012; therefore, many of the Certificate Conditions do not apply at this time.

Arizona Public Service

Summary of Certificate of Environmental Compatibility Compliance

Palo Verde Hub to North Gila 500-kV Transmission Line Project (Case 135)

Certificate Condition	Action of Compliance
1) The Applicant shall obtain all required approvals and permits necessary to construct the Project.	A summary of permits and approvals is included with this filing.
2) The Applicant shall comply with all existing applicable ordinances, master plans and regulations of the State of Arizona, the County of Maricopa, the County of Yuma, the United States, and any other governmental entities having jurisdiction.	APS standard practice includes compliance with all existing standards, regulations, and ordinances where applicable.
3) This authorization to commence construction of the Project shall expire seven years from the date the Certificate is approved by the Commission; provided, however, that prior to such expiration the Applicant or its assignees may request that the Commission extend this time limitation.	Project was certificated January 23, 2008. Authorization to construct the Project expires January 23, 2015.
4) The Applicant shall make every reasonable effort to identify and correct, on a case-specific basis, all complaints of interference with radio or television signals from operation of the transmission line and related facilities addressed in this Certificate. The Applicant shall maintain written records for a period of five years of all complaints of radio or television interference attributable to operation, together with the corrective action taken in response to each complaint. All complaints shall be recorded to include notations on the corrective action taken. Complaints not leading to a specific action or for which there was no resolution shall be noted and explained.	APS standard practice includes tracking and responding to complaints of interference with radio and television signals as they are submitted to APS.
5) The Project shall comply with the following recommendations of the Arizona Game and Fish Department ("AGFD"): (a) Wildlife data collected by the biological monitor will be given to the AGFD's Heritage Data Management System. (b) Where possible, leave large vegetation intact to reduce habitat impact and promote regeneration. (c) Coordinate plant salvage efforts with the Arizona Department of Agriculture, in accordance with the Arizona Native Plant Law. In addition, the applicable land management agencies should be consulted regarding guidelines for revegetation efforts.	Construction for this Project is not complete as of November 1, 2012; however, activities related to this Condition will be reported, if applicable, in a future annual compliance filing.

Certificate Condition	Action of Compliance
<p>6) Pursuant to A.R.S. §41-844, if any archaeological, paleontological or historical site or object that is at least fifty years old is discovered on state, county or municipal land during plan-related activities, the person in charge shall promptly report the discovery to the Director of the Arizona State Museum, and in consultation with the Director, shall immediately take all reasonable steps to secure and maintain the preservation of the discovery. If human remains and/or funerary objects are encountered on private land during the course of any ground-disturbing activities relating to the development of the subject property, Applicant shall cease work on the affected area of the Project and notify the Director of the Arizona State Museum pursuant to A.R.S. §41-865.</p>	<p>APS standard practice includes compliance with A.R.S. § 41-844 and A.R.S. § 41-865.</p>
<p>7) The Applicant shall design the transmission lines so as to mitigate impacts to raptors.</p>	<p>APS standard design practices include efforts to minimize the risk to raptors.</p>
<p>8) The Applicant shall use non-specular conductor and dulled surfaces for transmission line structures.</p>	<p>APS standard design practices include the use of non-specular and dulled surfaces for transmission structures.</p>
<p>9) Within 120 days of the Commission decision granting this Certificate, Applicant will post signs in public rights-of-way giving notice of the Project corridor to the extent authorized by law. Within 45 days of securing easement or right-of-way for the Project, the Applicant shall erect and maintain signs providing public notice that the property is the site of a future transmission line. Such signage shall be no smaller than a normal roadway sign. The Applicant shall place signs in prominent locations at reasonable intervals such that the public is notified along the full length of the transmission line until the transmission structures are constructed. The signs shall advise:</p> <p>(a) That the site has been approved for the construction of Project facilities;</p> <p>(b) The expected date of completion of the Project facilities;</p> <p>(c) A phone number for public information regarding the Project;</p> <p>(d) The name of the Project;</p>	<p>APS complied with this Condition by posting signage in public rights-of-way giving notice of the Project corridor. This was documented in the 2008 annual compliance filing.</p> <p>APS posted signage notifying the public of acquired rights-of-way in 2010. This was documented in the 2010 annual compliance filing.</p> <p>Signage consistent with the example that was provided in the 2010 filing has been installed within 45 days of acquiring new right-of-way.</p>
<p>(e) The name of the Applicant; and (f) The Applicant's website. Sign placement will be reported annually in accordance with Condition 16.</p>	

Certificate Condition	Action of Compliance
<p>10) In the event that the Project requires an extension of the term of this Certificate prior to completion of construction, Applicant shall use reasonable means to directly notify all landowners and residents within a one-half mile of the Project corridor for which the extension is sought. Such landowners and residents shall be notified of the time and place of the proceeding in which the Commission shall consider such request for extension.</p>	<p>Should the Project require an extension of the term of the Certificate prior to completion of construction, APS will comply with this condition.</p>
<p>11) Before construction on this Project may commence, the Applicant must file a Plan of Development approved by the Bureau of Land Management ("BLM") with Docket Control with copies to the affected areas of jurisdiction. Applicant will comply with the BLM's Standard Construction and Operating Procedures and Mitigation Measures and Other Mitigation Measures as outlined in the Finding of No Significant Impact, attached hereto as Exhibit C.</p>	<p>Construction for this Project is not complete as of November 1, 2012; however, activities related to this Condition will be reported, if applicable, in a future annual compliance filing.</p>
<p>12) Applicant shall retain a qualified biologist to monitor all ground clearing/disturbing construction activities that may affect sensitive species or habitat. The biological monitor will be responsible for ensuring proper actions are taken if a special status species is encountered. If Sonoran desert tortoises are encountered during construction, the Applicant shall follow the AGFD's Guidelines for Handling Sonoran Desert Tortoises.</p>	<p>Construction for this Project is not complete as of November 1, 2012; however, activities related to this Condition will be reported, if applicable, in a future annual compliance filing.</p>
<p>13) With respect to the Project, Applicant shall participate in good faith in state and regional transmission study forums to coordinate transmission expansion plans related to the Project and to resolve transmission constraints in a timely manner.</p>	<p>APS coordinates its transmission planning with other transmission providers and stakeholders in the Desert Southwest, and the Western Interconnection as a whole, through its active participation in the Southwest Area Transmission (SWAT) planning group, membership in WestConnect, membership in the Western Electricity Coordinating Council (WECC) and participation in the WECC Transmission Expansion Planning Policy Committee (TEPPC) and its Technical Advisory Subcommittee (TAS).</p>
<p>14) The Applicant shall provide copies of this Certificate to the Yuma County Planning and Zoning Commission, the Maricopa County Planning and Development Department, the Arizona State Land Department, the State Historic Preservation Office, and AGFD.</p>	<p>APS has complied with this Condition. Copies were mailed to each of the jurisdictions and agencies on January 28, 2008.</p>

Certificate Condition	Action of Compliance
<p>15) Prior to the date this transmission line is put into commercial service, the Applicant shall provide homebuilders and developers within one mile of the center line of the Certificate route the identity, location, and a pictorial depiction of the type of power line being constructed, accompanied by a written description, and encourage the developers and homebuilders to include this information in the developers' and homebuilders' homeowners' disclosure statements.</p>	<p>APS has complied with this Condition. A Project information/disclosure packet was mailed to the identified homebuilders and developers on November 5, 2010. Examples of the documents were provided in the 2010 compliance filing.</p>
<p>16) The Applicant shall submit a self-certification letter annually, identifying progress made with respect to each condition contained in the Certificate, including which conditions have been met. Each letter shall be submitted to the Utilities Division Director on December 1 beginning in 2008. Attached to each certification letter shall be documentation explaining how compliance with each condition was achieved. Copies of each letter along with the corresponding documentation shall be submitted to the Arizona Attorney General and Department of Commerce Energy Office. The requirement for the self-certification shall expire on the date the Project is placed into operation.</p>	<p>Compliance with this Condition is evidenced by the submission of this filing.</p>
<p>17) Applicant shall work in good faith with the Yuma Proving Ground commanding officer regarding the final right-of-way on that portion of the route within the Yuma Proving Ground.</p>	<p>APS has complied with this Condition. The final design complies with the letter from the Department of the Army, Yuma Proving Grounds dated November 21, 2006. A copy of the letter is provided with this filing.</p>
<p>18) Within the Project area, construction activities will avoid to the extent practicable designated wildlife water sources to allow free access by Bighorn Sheep.</p>	<p>Construction for this Project has not commenced as of November 1, 2012; however, activities related to this Condition will be reported, if applicable, in a future annual compliance filing.</p>
<p>19) Applicant shall conform to Western Electricity Coordinating Council/North American Electric Reliability Corporation N-1 and N-1-1 contingency planning criteria. N-1 contingency shall not result in any load dropping or generation tripping.</p>	<p>APS has complied with this Condition. As documented in APS' current 10-Year Plan Technical Study Report, each of the Category A and Category B contingencies meets the NERC/WECC Planning Standards.</p>
<p>20) Except when entering switchyards and substations, the minimum spacing between the center lines of the two 500 kV systems should be the greater of: 1) 130 feet; or 2) the height of the tallest tower involved in that particular span.</p>	<p>The final design will meet the minimum spacing requirements of this condition.</p>
<p>21) Before commencing construction of Project facilities located within 100 feet of any existing natural gas or hazardous liquid pipeline, the Applicant shall:</p>	<p>APS has complied with this Condition. APS has performed the appropriate studies to locate any existing natural gas or hazardous liquid pipelines. As of November 1, 2012, no APS facilities will be within 100 feet of the existing pipeline.</p>

Certificate Condition	Action of Compliance
<p>(a) Perform the appropriate grounding and cathodic protection studies to show that the Project's location within 100 feet of such pipeline results in no material adverse impacts to the natural gas or hazardous liquid pipeline or to public safety when both are in operation. As a compliance matter, a report of studies shall be provided to the Commission Staff. If material adverse impacts are noted in the studies, Applicant shall take appropriate steps to ensure that such material adverse impacts are eliminated. Applicant shall provide to the Commission Staff written documentation of the actions that will be taken and documentation showing no material adverse impact will occur; and,</p> <p>(b) Perform a technical study simulating an outage of the facility that may be caused by the collocation of the Project within 100 feet of the existing natural gas or hazardous liquid pipeline. This study should either: i) show that such outage does not result in customer outages; or ii) include operating plans to minimize any resulting customer outages. Applicant shall provide a copy of this study to Commission Staff.</p>	
<p>22) Applicant shall pursue good faith efforts to reach a commercially reasonable agreement for interconnection at a new Arlington Valley 500kV switchyard. Applicant shall file with the Commission Utilities Division no later than December 31, 2010, a report summarizing its efforts, the option(s) ultimately selected, and the reasons other option(s) were not selected.</p> <ul style="list-style-type: none"> a) The name of the Project; b) The name of the Applicant; and c) The Applicant's website. <p>Sign placement will be reported annually in accordance with Condition 16.</p>	<p>APS has complied with this Condition. A letter was filed in the Docket on February 5, 2010 which provided notification of the interconnection location.</p>
