RE: **NOTICE OF ERRATA - ARIZONA CORPORATION COMMISSION'S SEVENTH BIENNIAL TRANSMISSION ASSESSMENT PURUANT TO A.R.S. § 40-360.02.G, OF THE ADEQUACY OF EXISTING AND PLANNED TRANSMISSION FACILITIES TO MEET ARIZONA'S ENERGY NEEDS IN A RELIABLE MANNER (DOCKET NO. E-00000D-11-0017)**

Staff completed its seventh biennial assessment of Arizona's existing and planned transmission system and filed its report ("report") with Docket Control on November 9, 2012. The Commission considered and approved the report at the December Open Meeting on December 11, 2012. Staff presented to the Commission a list of minor corrections to the report with an explanation that the corrections would be made when the report was finalized. The Commission issued an Order in which the report was adopted. However, when the Final Order was docketed and distributed, the report that was attached to the Order inadvertently did not incorporate the list of corrections.

The Corrections to the Final Report that were discussed and acknowledged by the Commission during the December Open Meeting are attached hereto as the Table of Corrections to the 7<sup>th</sup> BTA Staff Report. The corrected version of the report will be posted mid-January on the Commission's website.
