PIERCE PROPOSED AMENDMENT NO. 2

TIME/DATE PREPARED: Tuesday, January 22, 2013

COMPANY: UNS Electric, Inc.

AGENDA ITEM NO. 10

DOCKET NO(S). E-04204A-12-0297

OPEN MEETING DATE: January 23, 2013

INSERT New Finding of Fact, Page 23, Line 12

“We are concerned that the REST surcharge continues to increase in a manner that may not have been contemplated when the rules were adopted and first implemented. This increase in the surcharge appears to have become burdensome on certain customer classes, including residential customers and other smaller load customers. Under these difficult economic times, we believe it is reasonable to adopt mitigation measures to minimize the surcharge’s rate impact on UNS’s retail customers. Therefore we will require UNS, in its calculation of compliance with the REST Rules, to exclude retail sales to its largest customers (3 MWs or greater in demand) from its overall retail sales calculation. To the extent that it may be necessary, we waive inclusion of these larger customers from the calculation of the annual retail kWh sold referred to in R14-2-1804.”

INSERT New Ordering Paragraph, Page 26, Line 1

“IT IS FURTHER ORDERED that UNS shall be required in its calculation of compliance with the REST Rules, to exclude retail sales to its largest customers (3 MWs or greater in demand) from its overall retail sales calculation. To the extent that it may be necessary, we waive inclusion of these larger customers from the calculation of the annual retail kWh sold referred to in R14-2-1804.”

PLEASE MAKE ALL CONFORMING CHANGES.
