Dwight Nodes

Dear Commissioners and Judge Nodes,

11/6/12  
Date

The undersigned wish to make a statement regarding the petition currently before the Commission of the Boulders Homeowners Association seeking the de-commissioning and closure of the Boulders East Plant, a sewage processing plant located in the midst of the Boulders Community in Carefree and North Scottsdale and operated by Black Mountain Sewer/Liberty Water. This statement follows:

I have lived at 1054 Boulder Drive for 17 years since January 1995. I have loved my winter home, the Boulders Community and the Arizona landscape. The stench from the sewerage has been terrible and we have guests who become ill from these gaseous fumes. I spent over \$1,500 to install back valves to the main sewer line, because I've had sewer fumes brought into my living room by the furnace. Old homes have traps that require water to keep sewer gases from backing up into the home. I am 97 and I am not a plumber, so I was not aware I needed to keep my "traps" in my garage floor filled with a quart of water monthly when it is dry. I am concerned with health risks as well as property loss. You have an obligation to remedy this situation.

Sincerely,  
Shirley P. Shaw
