Subject: Smart meters

DOCKETED BY [Signature]

Hi we live in tonopah az and do not want a smart meeter. Not enough testing and to many concerns invilving property damage as well as health damage. We were told by aps that we would be getting charged a fee for them having to come read our meeter physically. A fee that we already pay accordng. To what they told me a couple years back when I called and asked what the meter readings the was for. We pay enough fees as it is and until these products are further tested we do not wish them on our property I do not feel we should be penalized for this as it is our right to choose how are electric services are given to us. Please do not allow us to be penalized for exercising our choice of service. Thank you leslie and vince eversole
