Investigator: Trish Meeter

Phone: (602) 542-0902 A 9:40 Fax: (602) 542-2129

Priority: Respond Within Five Days

ARIZONA CORPORATION COMMISSION
DOCKET CONTROL

Opinion No. 2013 - 108026

Date: 1/24/2013

Complaint Description: 19I Other - ADEQ/EPA Questions
N/A Not Applicable

Complaint By: First: Nancy Last: Baer

Account Name: Nancy Baer

Home: (000) 000-0000

Street: n/a

Work:

City: n/a

CBR: redrockclass@msn.com

State: AZ Zip: n/a

is: E-Mail

Utility Company: Miscellaneous Electric

Division: Electric

Contact Name: Unknown

Contact Phone: (000) 000-0000

Nature of Complaint:

From: Nancy Baer [REDACTED]

Sent: Tuesday, January 15, 2013 3:01 PM

To: Utilities Div - Mailbox

Subject: FW: AZ Docket No. 11-0328 2012 Bioinitiative Report "A Rationale for a Biologically Based Exposure Standards for Low Intensity Electromagnetic Radiation"

Arizona Corporation Commission

DOCKETED

Sending again to be entered on the docket.

JAN 30 2013

From: Nancy Baer [REDACTED]

ARIZONA CORPORATION COMMISSION
UTILITY COMPLAINT FORM

Subject: FW: AZ Docket No. 11-0328 2012 Bioinitiative Report "A Rationale for a Biologically-Based Exposure Standards for Low Intensity Electromagnetic Radiation

Dear Publicly Elected Officials and Sedona City Manager:

With the New Year brings new discoveries. 2013 is ushered in by the 2012 Bioinitiative Report <http://www.bioinitiative.org/> which will provide you with information so that you may be properly informed in protecting the citizens who voted you into your offices. Please make sure that the information contained within the report is entered into the docket referenced above. Please note that the City of Sedona City Council and City Manager have already received a copy of this document.

WHAT IS IT: A report by 29 independent scientists and health experts from around the world* about possible risks from wireless technologies and electromagnetic fields. It updates the BioInitiative 2007 Report.

WHAT IT COVERS: The science, public health, public policy and global response to the growing health issue of chronic exposure to electromagnetic fields and radiofrequency radiation in the daily life of billions of people around the world. Covers brain tumor risks from cell phones, damage to DNA and genes, effects on memory, learning, behavior, attention; sleep disruption and cancer and neurological diseases like Alzheimer's disease. Effects on sperm and miscarriage (fertility and reproduction), effects of wireless on the brain development of the fetus and infant, and effects of wireless classrooms on children and adolescents is addressed. Mechanisms for biological action and public health responses in other countries are discussed. Therapeutic use of very low intensity EMF and RFR are addressed.

WHAT IS NEW: This update covers about 1800 new studies reporting bioeffects and adverse health effects of electromagnetic fields (powerlines, electrical wiring, appliances and hand-held devices) - and wireless technologies (cell and cordless phones, cell towers, WI-FI, wireless laptops, wireless routers, baby monitors, surveillance systems, wireless utility meters ('smart meters'), etc.

The BioInitiative 2012 Report has been prepared by 29 authors from ten countries, ten holding medical degrees (MDs), 21 PhDs, and three MsC, MA or MPHs. Among the authors are three former presidents of the Bioelectromagnetics Society, and five full members of BEMS. One distinguished author is the Chair of the Russian National Committee on Non-ionizing Radiation. Another is a Senior Advisor to the European Environmental Agency.

Full titles and affiliations of authors is in Section 25 - List of Participants

Each year, about 100,000 people visit the site. In the five years since it's publication, the BioInitiative website has been accessed over 10.5 million times, or four times every minute. Every five minutes on the average, a person somewhere in the world has logged on. More than 5.2 million files and 1 million pages of information has been downloaded. That is equivalent to more than 93,000 full copies of the 650+ page report (288.5 million kbytes).

Step up to the plate and protect your citizenry. If you don't know enough about how something like electromagnetic radio frequencies will affect many peoples' lives, and you do not have the interest in learning

ARIZONA CORPORATION COMMISSION
UTILITY COMPLAINT FORM

more about your ethical and moral responsibility becomes one of not advancing something you yourself do not comprehend.
