Commissioner Susan Bitter Smith  
1200 W. Washington - 2nd Floor  
Phoenix, AZ 85007

Honorable Commissioner Bitter Smith,

Tucson Electric has asked to raise the average residential electric bill more than \$127 a year.

Many Arizonans, especially those who are older, are on fixed incomes and cannot afford a 15% increase. Many expenses are going up including food, insurance, medical care.

Tucson Electric is asking for too much!

The Arizona State Government's Residential Utility Consumer Office staff recommends a much lower increase of only 5.5%.

Tucson Electric is now trying to negotiate a settlement to get their full 15.27% increase.

I'm respectfully requesting that you, as an elected utility regulator, please do what you can to oppose raising the average residential electric bill \$127 a year.

I look forward to your action. Thank you.

Sincerely,

Ms. DONNA COX

Commissioner Gary Pierce  
1200 W. Washington - 2nd Floor  
Phoenix, AZ 85007

Honorable Commissioner Pierce,

Hello:

Maybe a hike in the the rate charged for residential consumers suck as myself. However, 15% seems way out of line. I'd ok the 5.5% hike even if I am retired and living on a fixed income like most of the retirees in our state. What wrong with a sliding scale with those who can afford more paying more and those retired on a fixed budget paying less? Why isn't that fair?

Honorable Commissioner Bitter Smith,

Tucson Electric has asked to raise the average residential electric bill more than \$127 a year.

Many Arizonans, especially those who are older, are on fixed incomes and cannot afford a 15% increase. Many expenses are going up including food, insurance, medical care.

Tucson Electric is asking for too much!

The Arizona State Government's Residential Utility Consumer Office staff recommends a much lower increase of only 5.5%.

Tucson Electric is now trying to negotiate a settlement to get their full 15.27% increase.

I'm respectfully requesting that you, as an elected utility regulator, please do what you can to oppose raising the average residential electric bill \$127 a year.

I look forward to your action. Thank you.

Sincerely,

Honorable Commissioner Bitter Smith,

Hello:

Maybe a hike in the the rate charged for residential consumers suck as myself. However, 15% seems way out of line. I'd ok the 5.5% hike even if I am retired and living on a fixed income like most of the retirees in our state. What wrong with a sliding scale with those who can afford more paying more and those retired on a fixed budget paying less? Why isn't that fair?

Honorable Commissioner Pierce,

Tucson Electric has asked to raise the average residential electric bill more than \$127 a year.

Many Arizonans, especially those who are older, are on fixed incomes and cannot afford a 15% increase. Many expenses are going up including food, insurance, medical care.

Tucson Electric is asking for too much!

The Arizona State Government's Residential Utility Consumer Office staff recommends a much lower increase of only 5.5%.

Tucson Electric is now trying to negotiate a settlement to get their full 15.27% increase.

I'm respectfully requesting that you, as an elected utility regulator, please do what you can to oppose raising the average residential electric bill \$127 a year.

I look forward to your action. Thank you.

Sincerely,

Mr. John Po;;ey

Honorable Commissioner Pierce,

I am one of the many retired teachers in this community. The Arizona State Retirement System has not raised our monthly check since 2004! Do you hear what I'm saying? My income has not been adjusted for inflation, or anything else, for nine years! I simply can't afford this increase. Please don't allow this to happen. If they must have an increase, please make it as small as possible.

I'm respectfully requesting that you, as an elected utility regulator, please do what you can to oppose raising the average residential electric bill \$127 a year.

I look forward to your action. Thank you.

Honorable Commissioner Pierce,

Tucson Electric has asked to raise the average residential electric bill more than \$127 a year.

We are being penalized for using TOO LITTLE power! You have got to be kidding!

Many Arizonans, especially those who are older, are on fixed incomes and cannot afford a 15% increase. Many expenses are going up including food, insurance, medical care.

Tucson Electric is asking for too much!

The Arizona State Government's Residential Utility Consumer Office staff recommends a much lower increase of only 5.5%.

Or how about NO INCREASE!

Tucson Electric is now trying to negotiate a settlement to get their full 15.27% increase.

I'm respectfully requesting that you, as an elected utility regulator, please do what you can to oppose raising the average residential electric bill \$127 a year.

I look forward to your action. Thank you.

Honorable Commissioner Pierce,

Tucson Electric has asked to raise the average residential electric bill more than \$127 a year.

Many Arizonans, especially those who are older, are on fixed incomes and cannot afford a 15% increase. Many expenses are going up including food, insurance, medical care.

Tucson Electric is asking for too much!

The Arizona State Government's Residential Utility Consumer Office staff recommends a much lower increase of only 5.5%.

Tucson Electric is now trying to negotiate a settlement to get their full 15.27% increase.

I'm respectfully requesting that you, as an elected utility regulator, please do what you can to oppose raising the average residential electric bill \$127 a year.

I look forward to your action. Thank you.

Sincerely,
