AZ CORP COMMISSION
DOCKET CONTROL

Feb 10, 2013

Commissioner Susan Bitter Smith
1200 W. Washington - 2nd Floor
Phoenix, AZ 85007

Dear Commissioner Bitter Smith,

Tucson Electric Power (TEP) customers can wait no longer for vital energy efficiency programs to be reinstated. On August 21, 2012, Administrative Law Judge Jane Rodda issued a Recommended Opinion and Order, effective immediately, that the vast majority of TEP energy efficiency programs be resumed. Unfortunately, it appears that action on this order has been delayed again due to political issues. I am asking you to schedule consideration of this important plan immediately and move forward so that these critical energy efficiency programs will be delayed no further.

In 2011 TEP invested \$11 million in energy efficiency programs. For 2012, it will likely only be \$5 million. That means loss of programs and jobs associated with those programs. Tucsonans can't afford to wait another two months or longer for these programs.

At a Tucson hearing in July, TEP customers and consumer and conservation advocates spoke in favor of the prompt reinstatement of energy efficiency programs. They told the judge about how our community benefits from these programs, how we have been able to lower our bills and keep our homes more comfortable. They also spoke about the jobs that are supported by these programs. Don't let what was said there fall on deaf ears.

Please support TEP customers and don't delay important action on these energy efficiency programs. Move forward immediately according to the judge's order. Be leaders, be smart, think of the customers of TEP, and all of the citizens of Arizona. Don't concern yourself with petty politics, move this plan forward immediately. It's not getting any cooler out here you know! Thank you for standing up and thinking of the planet and what YOU can do NOW to help us, help it, be more energy efficient.

Thank you for considering my comments.

Sincerely,

Ms. Sandie Kubie
9680 W Rain Lily Ln
Tucson, AZ 85743-8324
