I cannot believe that you are contemplating having us, as tax payers ourselves, pay for the income taxes of the PIMA corp. Talk about paying fair share, they should be accountable to pay taxes as we are. The issue then becomes even more ridiculous when we will pay double as our homeowners fee will also be assessed with this unbelievable action. I sure hope that some serious consideration will be given this and not allow this to become a reality. Citizens are realizing that we do have voting power and this kind of action will definitely be a part of the thought process in the future choosing of our political representatives in many elective positions.
