**ADJUSTMENT SCHEDULE REAC-1  
RENEWABLE ENERGY STANDARD**

APPLICATION

The Renewable Energy Standard Adjustment Schedule ("REAC") shall apply to all retail Standard Offer or Direct Access service. All provisions of the customer's current applicable rate schedule will apply in addition to adjustment schedule REAC-1. This schedule shall recover the revenue requirements from the Renewable Energy Standard that are not otherwise recovered in base rates. The kWh charge and monthly surcharge limits shall be revised annually, as necessary, as approved by the Arizona Corporation Commission ("Commission"). Any new charges and surcharge limits will be applied in billing cycle 1 in the January revenue month, or as otherwise ordered by the Commission, and will not be prorated. Details regarding the administration of this Adjustor can be found in A.A.C. R14-2-1808. Adjustment schedules REAC-1 and DSMAC-1 may be combined on the customer's bill and shown on the "Environmental Benefits Surcharge" line.

As provided in Arizona Corporation Commission decision 73183, customers who receive an incentive under the Renewable Energy Standard and install their system after July 1, 2012 will pay the applicable monthly surcharge limit. This provision shall be effective in billing cycle 1 after APS reprograms its billing system to accomplish this, or with the March 2013 billing, whichever is sooner.

RATES

The bill shall be calculated at the following rates:

All kWh \$0.009575 per kWh

The monthly total of the Renewable Energy Standard Adjustment Charge shall not exceed the following limits:

Non-residential Customers	\$142.25	per service per month
