OPPOSE RATE CASE

We absolutely do NOT want a 115% rate hike for drinkable water. Our health has been jeopardized by the arsenic level for long enough. Please do not use our money to fund the company that has caused this. It has been their responsibility to provide safe water for years and have just now put in the treatment plant to remove this problem. Also, a 10 day written notice should be given before shutting off anyone's water for failure to pay when the bill is due.
