My Comments:

In 2005 I moved to Province in Maricopa Arizona and have witnessed many changes and experienced the increase cost of utility services that have adversely impacted my lifestyle.

I believe any further increase in water rates will adversely impact not only me but also reduce new home construction, resales and new businesses. Additionally, HOA's will have to pay increased water bills and this too will be passed on to me.

The economy is on a upward swing compared to where it was in 2008 when Global Water first filed its outrageous rate increase. The housing market is stronger, less empty homes in Maricopa and with increased building Global Water is receiving increased water and sewer revenue.

If this absorbent increase in rates is allowed in all categories there will be no incentive for individuals to conserve water.

Please consider my recommendations in your decisions and deny this outrageous water rate increase.
