Qwest Corporation d/b/a CenturyLink-QC ("CenturyLink") submits this Quarterly Report regarding its Change Management Process pursuant to the Arizona Corporation Commission's ("ACC") Order<sup>1</sup> relating to CenturyLink's Operational Support systems ("OSS"), which, among other things, adopted certain reporting recommendations in Staff's Supplemental Report on Qwest's Compliance with Checklist Item No. 2: Access to Unbundled Network Elements (UNEs), Change Management Process and Stand-Alone Test Environment, dated May 7, 2002 ("Staff's CMP Report"), at pp. 14-15.

21  
22  
23  
24

In Staff's CMP Report, Staff recommended that Qwest develop a report on the effectiveness of the Re-Designed Change Management Process, to be filed with the ACC on a quarterly basis.<sup>2</sup> In accordance with that recommendation, Qwest began submitting quarterly CMP reports in August 2002, beginning with data for the second calendar quarter of 2002. The

<sup>1</sup> Decision No. 66224, ACC Order, *In the Matter of US WEST Communication, Inc.'s Compliance with §271 of the Telecommunications Act of 1996*, at ¶¶72, 151, and ordering paragraphs (August 28, 2003)("OSS Order").

<sup>2</sup> Staff's CMP Report at 15.

1 Commission adopted Staff's reporting recommendation in its OSS Order.<sup>3</sup> CenturyLink submits  
2 this report regarding events that occurred from January through March, 2013 ("1Q2013") in  
3 accordance with the Commission's Order.

4 The information outlined by Staff in its recommendation is included in Exhibits A  
5 through D to this report, along with additional relevant information, as described below.

6 Exhibit A, entitled Qwest/CenturyLink Wholesale Change Management Process: CLEC  
7 and Qwest/CenturyLink Change Requests Submitted 1st Quarter 2013 ("1Q2013"), sets forth a  
8 listing of the number of CLEC and CenturyLink originated systems and product/process Change  
9 Requests ("CRs"), along with the percentage of the total CRs submitted during the quarter by  
10 CLECs and CenturyLink, and a listing of all of the CRs submitted during the quarter, including  
11 the date on which the change was submitted, CR number, summary of the change requests, and  
12 the party that submitted the change.<sup>4</sup>

13 During 1Q2013, CLECs submitted six systems CRs, which constituted 46% of the total  
14 number of systems CRs, and zero product/process CRs, which constituted 0% of the  
15 product/process CRs. CenturyLink submitted seven systems CRs, which constituted 54% of the  
16 total number of systems CRs, and one product/process CR, which constituted 100% of the  
17 product/process CRs.<sup>5</sup>

18 Exhibit B, entitled Qwest/CenturyLink Wholesale Change Management Process: Status  
19 and Disposition of Changes – 1st Quarter 2013, sets forth a summary of the current status or  
20 disposition of all systems and product/process changes. These changes are listed in the  
21 following order:

---

22 <sup>3</sup> OSS Order, at ¶¶72, 151, and ordering paragraphs (August 28, 2003).

23 <sup>4</sup> Further information regarding each CR can be found using the Product/Process Interactive Reports and Systems  
24 Interactive Reports on CenturyLink's wholesale web site. Links to those reports can be found at the following URL:  
<http://www.centurylink.com/wholesale/cmp/changerequest.html>.

25 <sup>5</sup> Section 5.4 of Qwest's Wholesale Change Management Process Document ("Wholesale CMP") provides that  
26 Qwest must submit CRs for Level 4 product/process changes. While Qwest does not submit CRs to initiate Level  
0-3 product/process changes, information regarding those changes is included in Exhibit A.

- CLEC Systems Change Requests
- CLEC Product/Process Change Requests
- Qwest/CenturyLink Systems Change Requests
- Qwest Product/Process Change Requests and Changes

Within the listing of Qwest Product/Process Change Requests and Changes, Qwest/CenturyLink Level 4 changes, if any, are listed first, followed by an aggregate listing of Level 1-3 changes.<sup>6</sup> For each change listed, Exhibit B contains the date on which the change was submitted, the type of change or CR number, a summary of the change, the status and proposed effective date, if applicable, and the party that submitted the change.

Exhibit C, entitled Qwest/CenturyLink Wholesale Change Management Process: Summary of Change by Interface Release – 1st Quarter 2013, sets forth information regarding interface changes that were implemented during the quarter.

Exhibit D, entitled Qwest/CenturyLink Wholesale Change Management Process: Escalation, Dispute Postponement Process – 1st Quarter 2013, provides links where information concerning the escalations and dispute resolutions initiated from January 1, 2013 through March 31<sup>st</sup>, 2013 are set forth. This information includes the issues escalated and those taken to dispute resolution, if any, along with the resolution reached.

Finally, CenturyLink has also attached as Exhibit E an updated matrix that catalogues Qwest/CenturyLink’s compliance with each of the sections of CenturyLink’s Wholesale CMP<sup>7</sup> to provide additional data regarding the effectiveness of the CMP. The matrix shows that the core provisions of the redesigned process have been in effect for many years now and lists the

<sup>6</sup> Level 0 changes are defined as those that do not change the meaning of documentation, do not alter CLEC operating procedures, and are effective immediately without notice. Because these changes do not require any notification, web change form, or history log, they are not tracked and are not reported here.

<sup>7</sup> The current version of CenturyLink’s Wholesale CMP can be found on the “Change Management Process” page of CenturyLink’s wholesale web site at <http://www.centurylink.com/wholesale/cmp/>.

1 timeframes and Qwest/CenturyLink deliverables in the Wholesale CMP – each of which was  
2 defined and agreed to through the redesign process – along with specific information detailing  
3 CenturyLink’s record of compliance with those obligations.

Note: For Qwest/CenturyLink -originated Product and Process CRs, the CMP framework does not require clarification meetings to be held, but Qwest/CenturyLink has included this as a CMP milestone. Discussions to clarify Qwest/CenturyLink -originated Product or Process CRs are generally held informally within Qwest/CenturyLink by the originator of the CR and Qwest/CenturyLink Subject Matter Experts (SMEs) before the CR is even submitted to the CMP, and meeting minutes are not prepared for such discussions. After the CR is formally submitted to CMP, Qwest/CenturyLink SMEs may, but generally do not, clarify the CR. In addition, Qwest/CenturyLink generally holds meetings with the CR originator after submission of the CR to CMP to discuss such matters as the CMP requirements related to the CR. In general, this is the meeting date that is populated in the clarification meeting field in the CLEC-Qwest/CenturyLink Product-Process Interactive Report.

			<p>During the third quarter of 2005, it was determined that there was no Event Notification generated for a DUF problem that occurred in 2004. The problem was identified by Qwest 2<sup>nd</sup> quarter 2004 and corrected within 4<sup>th</sup> quarter 2004. There were no CLECs that reported the problem. No CLEC coding changes were required.</p> <p>Note: In the process of preparing the reply comments for the OSS Declaration in the FCC 271 proceedings, Qwest discovered that a number of event notifications that were required to be issued by the CMP Framework had not been issued, even though the underlying defects had been corrected. After investigating the reasons for the non-issuance of these notifications, it became apparent that there was confusion among some members of the Qwest IT Staff. Once it identified the missing event notification problem and its cause, Qwest promptly issued clarifying instructions to the IT Staff so that going forward there will be no confusion.</p>
