2/21/13

Maricopa is on the upswing and housing projects are increasing and are stronger now than in 2008 when Global Water filed their first rate increase. We do not see as many foreclosures, as builders are actively building more homes along with larger complex areas for businesses, which is an automatic increase in revenue for Global Water.

Since we live on a fixed income the financial impact on us will be far to great for us to sustain a comfortable living in a HOA community. This increase will greatly effect our HOA which in turn must pass on this ridiculous increase to the home owners thus making us pay twice.

The increase Global Water is requesting will highly impact the construction of new homes, re-sale of homes and new businesses looking to come to Maricopa.

Global Water, if I understand from reports, is the richest water company of any water companies in Arizona.

This rate increase is not necessary and is ridiculous.

Sincerely,
Marsy L Caspersen
