Arizona Corporation Commission

DOCKETED

MAR 4 2013

Dear Sir or Madame:

I believe that the amount of the proposed rate increases requested on behalf of Global water and their affiliate sewer control company is an outrage and I am requesting the opportunity to challenge them in open hearings.

I am a five year Maricopa resident on a fixed income and see no justification of these incredible rates.

Global Water, through its Palo Verde Utilities, is proposing to raise on my home sewer service charge from \$62.91 per month to \$78.82 starting in late 2013 for a total increase of 25.29%.

Global Water, through its Santa Cruz Water Company, is proposing to change the cost for usage of potable & reclaimed water and the base rate from \$27.68 per month to \$34.00 for a total increase of 22.83% !!!

Twenty-two homes have been built in my eight square block community in the past four months proof positive that the housing market is stronger. We have less foreclosed (empty) homes in Maricopa and the Builders are all actively building which is automatic increased revenue for GW.

- Financial impact on Association Assessments as a HOA member I will not only have to pay more for their

---

private lot water and sewer, but Associations will not be able to afford the community increase and will have to pass that expense on to the me and I end up paying twice!)

-The economy is much stronger now than it was in 2008 when Global Water filed their first ridiculous rate increase.

-The probability that growth in Maricopa will be adversely affected in new home construction, re-sales, and new business.

- I oppose any increase in Water and Sewage services in and around the City of Maricopa.

Respectfully submitted:

Millard C Heath
