I have contacted APS and requested a permanent hold on the installation of a so-called "smart" meter. The APS legal easement to my property does not include an easement for a microwave transmitter.

I believe that "smart" meters constitute a biohazard which should not be allowed. They emit electromagnetic and radio frequency energy that exceeds allowable safe and healthful limits for domestic environments as determined by the W.H.O. and other groups.

Additionally, those with access to the "smart" meter databases can review a permanent history of our household activities, complete with calendar and time of day metrics. This highly invasive and detailed view of our daily lives constitutes a serious violation of our rights of privacy and domestic security.

End of Complaint

Utilities' Response:

Investigator's Comments and Disposition:

Noted and filed for the record in Docket Control.
