Subject: Far West Water and Sewer

Dear Arizona Corporations Commission,

During the town hall meeting last month regarding Far West Water and Sewer, several speakers offered testimony of the smell in the air from the Far West Sewer Facility on County 14 and Avenue 14.

I live about a mile north east from that facility.

This is the second morning that I have walked outside my house on a beautiful still-air Arizona Spring morning and the stench of sewer is so strong that it is almost gagging.

We have all complained for years. I have been out here for 14 years and they keep promising to clean it up but nothing ever gets done.

An interesting observation for comparison. In late October of last year, I had an occasion to stay overnight in my motorhome in the parking lot at the Yuma Hilton Gardens in downtown Yuma. I was parked just over the fence from the Yuma City Sewer facility and there was no smell.
